Federated InterContinental Fund

A Portfolio of Federated Equity Funds

A mutual fund seeking long-term capital appreciation by investing primarily in equity securities of foreign companies in both developed and emerging markets.

As with all mutual funds, the Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this Prospectus. Any representation to the contrary is a criminal offense.
IMPORTANT INFORMATION REGARDING THE FEDERATED FUNDS

SUPPLEMENT TO PROSPECTUSES AND STATEMENTS OF ADDITIONAL INFORMATION

Effective June 1, 2015, Class B Shares of the Federated Funds listed below will be closed to new accounts and new investors.

Effective August 1, 2015, Class B Shares of the Federated Funds listed below will be closed to new purchases made by existing shareholders (excluding reinvestment of dividends and capital gains) and to exchanges from Class B Shares of other Federated Funds.

Beginning on the effective dates referenced above, any purchase (including purchases pursuant to the Systematic Investment Program) or any exchange request to the Class B Shares of the Federated Funds listed below will be rejected. After the effective dates, to continue automatic investments, a Class B shareholder must designate a different share class of the same fund or another Federated Fund, provided the shareholder meets the eligibility requirements for that share class.

A shareholder owning such Class B Shares may continue to hold those shares until such shares automatically convert to Class A shares under the Fund’s existing conversion schedule as described in the relevant Federated Fund prospectus, or until the shareholder redeems such Class B shares, subject to any applicable contingent deferred sales charge (CDSC).

A shareholder owning such Class B Shares may exchange such shares for those Class B Shares of Federated Funds which remain open to new investments. However, no exchanges into the closed Class B Shares will be allowed.

Reinvestment of dividends and capital gains will continue uninterrupted.

All other Class B Share features, including but not limited to distribution (12b-1) and service fees, CDSC, accumulation privileges, and conversion features, will remain unchanged for Class B shares held after the Effective Date.

The Federated Funds include the Class B Shares of the following registrants and portfolios:

FEDERATED EQUITY FUNDS
  Federated Absolute Return Fund
  Federated InterContinental Fund
  Federated MDT Mid Cap Growth Strategies Fund

FEDERATED GOVERNMENT INCOME SECURITIES, INC.
  Federated Fund for U.S. Government Securities

FEDERATED INTERNATIONAL SERIES, INC.
  Federated International Bond Fund

FEDERATED MDT SERIES
  Federated MDT Small Cap Growth Fund

FEDERATED MUNICIPAL SECURITIES FUND, INC.

FEDERATED MUNICIPAL SECURITIES INCOME TRUST
  Federated New York Municipal Income Fund
  Federated Pennsylvania Municipal Income Fund

FEDERATED WORLD INVESTMENT SERIES, INC.
  Federated Emerging Market Debt Fund
  Federated International Small-Mid Company Fund

May 18, 2015
IMPORTANT INFORMATION REGARDING THE FEDERATED FUNDS

SUPPLEMENT TO CURRENT PROSPECTUSES FOR THE A CLASS OF THE BELOW-NAMED FUNDS

The following changes are effective as of June 1, 2015:

In the section “What Do Shares Cost?” under the sub-heading entitled, “Eliminating the Sales Charge,” please delete the fourth bullet point after the introductory sentence which shall be revised to say “Contingent upon notification to the Transfer Agent, the sales charge will be eliminated when you purchase or acquire Shares:” and replace it with the following:

- issued in connection with the merger, consolidation, or acquisition of the assets of another fund. Further, the sales charge will be eliminated on purchases of Shares made by a shareholder that originally became a shareholder of a Federated Fund pursuant to the terms of an agreement and plan of reorganization which permits shareholders to acquire Shares at NAV, provided that such purchased Shares are held directly with the Fund’s transfer agent. If the Shares are held through a financial intermediary the sales charge waiver will not apply.

For purposes of this supplement, only the A Class in the Prospectuses of the below-named funds are affected by the specific changes described above:

FEDERATED EQUITY FUNDS
- Federated Absolute Return Fund
- Federated Clover Small Value Fund
- Federated Clover Value Fund
- Federated InterContinental Fund
- Federated International Strategic Value Dividend Fund
- Federated Kaufmann Fund
- Federated Kaufmann Large Cap Fund
- Federated Kaufmann Small Cap Fund
- Federated MDT Mid Cap Growth Strategies Fund
- Federated Managed Risk Fund
- Federated Managed Volatility Fund
- Federated Prudent Bear Fund
- Federated Strategic Value Dividend Fund

FEDERATED EQUITY INCOME FUND, INC.

FEDERATED FIXED INCOME SECURITIES, INC.
- Federated Municipal Ultrashort Fund
- Federated Strategic Income Fund

FEDERATED GLOBAL ALLOCATION FUND

FEDERATED GOVERNMENT INCOME SECURITIES, INC.

FEDERATED HIGH INCOME BOND FUND, INC.

FEDERATED HIGH YIELD TRUST

FEDERATED INCOME SECURITIES TRUST
- Federated Capital Income Fund
- Federated Floating Rate Strategic Income Fund
- Federated Fund for U.S. Government Securities
- Federated Muni and Stock Advantage Fund
- Federated Prudent DollarBear Fund
- Federated Real Return Bond Fund
- Federated Short-Term Income Fund
- Federated Unconstrained Bond Fund

Fund Summary Information

Federated InterContinental Fund (the “Fund”)

RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund’s investment objective is to seek long-term capital appreciation.

RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold Class A Shares (A), Class B Shares (B), Class C Shares (C), Class R Shares (R), Institutional Shares (IS) and Class R6 Shares (R6) of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least $50,000 in certain classes (e.g., A class) of Federated funds. More information about these and other discounts is available from your financial professional and in the “What Do Shares Cost?” section of the Prospectus on page 15.

1 The Fund has adopted a Distribution (12b-1) Plan for its Class A Shares pursuant to which the A class of the Fund may incur or charge a Distribution (12b-1) fee of up to a maximum of 0.05%. No such fee is currently incurred or charged by the A class of the Fund. The A class of the Fund will not incur or charge such a Distribution (12b-1) fee until such time as approved by the Fund’s Board of Trustees (the “Trustees”).

2 The Adviser and its affiliates on their own initiative have agreed to waive their fees and/or reimburse expenses so that the total annual fund operating expenses (excluding Acquired Fund Fees and Expenses, Tax Reclaim Recovery Expenses, expenses allocated from affiliated partnerships, extraordinary expenses and proxy-related expenses paid by the Fund, if any) paid by the Fund’s A, B, C, R, IS and R6 classes (after the voluntary waivers and/or reimbursements) will not exceed 1.29%, 2.08%, 2.08%, 1.45%, 0.98 and 0.94% (the “Fee Limit”), respectively, up to but not including the later of (the “Termination Date”): (a) February 1, 2016; or (b) the date of the Fund’s next effective Prospectus. While the Adviser and its affiliates currently do not anticipate terminating or increasing these arrangements prior to the Termination Date, these arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Trustees.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. Expenses assuming no redemption are also shown. The Example also assumes that your investment has a 5% return each year and that the operating expenses are as shown in the table above and remain the same. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 64% of the average value of its portfolio.

**RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE**

**What are the Fund’s Main Investment Strategies?**

The Fund invests primarily in equity securities of foreign companies. The Fund may invest in a company of any style or size (including companies with large, medium or small market capitalizations) in both developed and emerging markets. In selecting securities, the Fund’s investment adviser (“Adviser”) focuses first on country selection seeking to identify countries whose stock markets appear attractively valued relative to other countries, have better growth prospects, have attractive macroeconomic forces working in their favor and evidence other factors which the Adviser has identified as being correlated with market outperformance. Once a country’s stock market has been selected for investment, the Adviser uses bottom up stock research and optimization models to select a group of stocks which give broad exposure to the targeted market. The models’ stock selection criteria includes among other things, growth indicators, valuation indicators and corporate quality indicators. The Fund may buy or sell foreign currencies (which may be implemented through derivative contracts such as forward or future contracts) in lieu of or in addition to non-dollar denominated foreign equity securities in order to increase or decrease its exposure to foreign equity and/or currency markets. The Fund may invest in hybrid investments (such as notes linked to underlying securities, indices or commodities), or derivative contracts (such as futures, options and swaps), as well as exchange-traded funds (ETFs) to implement its investment strategy and to hedge against losses in the Fund.

**What are the Main Risks of Investing in the Fund?**

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund’s returns include:

- **Stock Market Risk.** The value of equity securities in the Fund’s portfolio will fluctuate and, as a result, the Fund’s Share price may decline suddenly or over a sustained period of time. Information publicly available about a company, whether from the company’s financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company’s shares in the market.

- **Risk of Foreign Investing.** Because the Fund invests in securities issued by foreign companies, the Fund’s Share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case.

- **Risk of Investing in ADRs and Domestically Traded Securities of Foreign Issuers.** Because the Fund may invest in American Depositary Receipts (ADRs) and other domestically traded securities of foreign companies, the Fund’s Share price may be more affected by the risks of foreign investing.

- **Currency Risk.** Exchange rates for currencies fluctuate daily. Accordingly, the Fund may experience increased volatility with respect to the value of its Shares and its returns as a result of its exposure to foreign currencies through direct holdings of such currencies or holding of non-U.S. dollar denominated securities.
- **Eurozone Related Risk.** A number of countries in the European Union (EU) have experienced, and may continue to experience, severe economic and financial difficulties. Additional EU member countries may also fall subject to such difficulties. These events could negatively affect the value and liquidity of the Fund’s investments in euro-denominated securities and derivatives contracts, securities of issuers located in the EU or with significant exposure to EU issuers or countries.

- **Risk of Investing in Emerging Market Countries.** Securities issued or traded in emerging markets generally entail greater risks than securities issued or traded in developed markets. Emerging market countries may have relatively unstable governments and may present the risk of nationalization of businesses, expropriation, confiscatory taxation or, in certain instances, reversion to closed market, centrally planned economies.

- **Liquidity Risk.** The securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities.

- **Risk Related to Company Capitalization.** The Fund may invest in companies with market capitalizations of any size, including small-capitalization and mid-capitalization (or “small-cap” and “mid-cap”) companies. The additional risks posed by small-cap and mid-cap companies could increase the volatility of the Fund’s portfolio and performance. Shareholders should expect that the value of the Fund’s Shares will be more volatile than a fund that invests exclusively in large-cap companies.

- **Sector Risk.** Companies with similar characteristics may be grouped together in broad categories called sectors. Sector risk is the possibility that a certain sector may underperform other sectors or the market as a whole. As the Adviser allocates more of the Fund’s portfolio holdings to a particular sector, the Fund’s performance will be more susceptible to any economic, business or other developments which generally affect that sector.

- **Risk of Investing in Derivative Contracts and Hybrid Instruments.** Derivative contracts and hybrid instruments involve risks different from, or possibly greater than, risks associated with investing directly in securities and other traditional investments. Specific risk issues related to the use of such contracts and instruments include valuation and tax issues, increased potential for losses and/or costs to the Fund and a potential reduction in gains to the Fund. Each of these issues is described in greater detail in this Prospectus. Derivative contracts and hybrid instruments may also involve other risks described in this Prospectus or the Fund’s Statement of Additional Information (SAI), such as stock market, credit, currency, liquidity and leverage risks.

- **Counterparty Credit Risk.** Includes the possibility that a party to a transaction (such as a derivative transaction) involving the Fund will fail to meet its obligations.

- **Leverage Risk.** Leverage risk is created when an investment (such as a derivative transaction) exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund’s risk of loss and potential for gain.

- **Custodial Services and Related Investment Costs.** Custodial services and other costs relating to investment in international securities markets generally are more expensive due to differing settlement and clearance procedures than those of the United States. In addition, security settlement and clearance procedures in some emerging market countries may not fully protect the Fund against loss of its assets.

- **Exchange-Traded Funds Risk.** An investment in an ETF generally presents the same primary risks as an investment in a conventional fund (i.e., one that is not exchange-traded). Investing in an ETF may incur additional fees and/or expenses which would, therefore, be borne indirectly by the Fund in connection with any such investment.

- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance. The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.
PERFORMANCE: BAR CHART AND TABLE

Risk/Return Bar Chart

The Fund is the successor to the Rochdale Atlas Portfolio pursuant to a reorganization that occurred on August 24, 2007. Information provided for periods prior to August 24, 2007, is historical information for the Rochdale Atlas Portfolio, which was managed by Rochdale Investment Management and had the same investment objective and similar strategies as the Fund.

The bar chart and performance table below reflect historical performance data for the Fund and are intended to help you analyze the Fund’s investment risks in light of its historical returns. The bar chart shows the variability of the Fund’s A class total returns on a calendar year-by-year basis. The Average Annual Total Return Table shows returns for each class averaged over the stated periods, and includes comparative performance information. The Fund’s performance will fluctuate, and past performance (before and after taxes) is not necessarily an indication of future results. Updated performance information for the Fund is available under the “Products” section at FederatedInvestors.com or by calling 1-800-341-7400.

The total returns shown in the bar chart do not reflect the payment of any sales charges or recurring shareholder account fees. If these charges or fees had been included, the returns shown would have been lower.

Within the periods shown in the bar chart, the Fund’s A class highest quarterly return was 23.32% (quarter ended June 30, 2009). Its lowest quarterly return was (24.54)% (quarter ended September 30, 2011).

Average Annual Total Return Table

The Fund’s B class, C class, R class, IS class commenced operations on August 25, 2007. The Fund’s R6 class commenced operations on August 5, 2013. For the period prior to the commencement of operations of the Fund’s B class, C class, R class, IS class and R6 class the performance information shown is for the Fund’s A class, adjusted to reflect the expenses of the Fund’s B class, C class and R class, respectively. For the period prior to the commencement of operations of the IS class and R6 class, the performance of the Fund’s A class has not been adjusted to reflect the expense ratio of IS class and R6 class, respectively since IS class and R6 class are estimated to have a lower expense ratio than the expense ratio of the Fund’s A class. In addition to Return Before Taxes, Return After Taxes is shown for the Fund’s A class to illustrate the effect of federal taxes on Fund returns. After-tax returns are shown only for A class, and after-tax returns for the B, C, R, IS and R6 classes will differ from those shown below for A class. Actual after-tax returns depend on each investor’s personal tax situation, and are likely to differ from those shown. After-tax returns are calculated using a standard set of assumptions. The stated returns assume the highest historical federal income and capital gains tax rates. These after-tax returns do not reflect the effect of any applicable state and local taxes. After-tax returns are not relevant to investors holding shares through a 401(k) plan, an Individual Retirement Plan or other tax-advantaged investment plan.

FUND MANAGEMENT
The Fund’s Investment Adviser is Federated Global Investment Management Corp.
Audrey H. Kaplan, Senior Portfolio Manager, managed the predecessor fund to the Fund, the Rochdale Atlas Portfolio, since February 2004, and has continued to manage the Fund as an employee of the Adviser since the Fund’s reorganization with the predecessor fund in August 2007.
Geoffrey C. Pazzanese, Senior Portfolio Manager, managed the predecessor fund to the Fund, the Rochdale Atlas Portfolio, since January 2007, and has continued to manage the Fund as an employee of the Adviser since the Fund’s reorganization with the predecessor fund in August 2007.

PURCHASE AND SALE OF FUND SHARES
You may purchase, redeem or exchange Shares of the Fund on any day the New York Stock Exchange is open. Shares may be purchased through a financial intermediary firm that has entered into a Fund selling and/or servicing agreement with the Distributor or an affiliate (“Financial Intermediary”) or directly from the Fund, by wire or by check. Please note that certain purchase restrictions may apply. Redeem or exchange Shares through a financial intermediary or directly from the Fund by telephone at 1-800-341-7400 or by mail.

A, B & C Classes
The minimum investment amount for the Fund’s A, B and C classes is generally $1,500 for initial investments and $100 for subsequent investments. The minimum initial and subsequent investment amounts for Individual Retirement Accounts are $250 and $100, respectively. There is no minimum initial or subsequent amount for employer-sponsored retirement plans. The minimum investment for Systematic Investment Programs is $50.

R Class
The minimum initial and subsequent investment amounts for Individual Retirement Account rollovers into the Fund’s R class are generally $250 and $100, respectively. There is no minimum initial or subsequent amount for employer-sponsored retirement plans. The minimum investment amount for Systematic Investment Programs is $50.

IS Class
The minimum initial investment amount for the Fund’s IS class is generally $1,000,000 and there is no minimum subsequent investment amount. The minimum investment amount for Systematic Investment Programs is $50.

R6 Class
There are no minimum initial or subsequent investment amounts required. The minimum investment amount for Systematic Investment Programs is $50.
TAX INFORMATION

A, B, C, R & IS Classes

The Fund’s distributions are taxable as ordinary income or capital gains except when your investment is through a 401(k) plan, an Individual Retirement Account or other tax-advantaged investment plan.

R6 Class

The Fund’s distributions are taxable as ordinary income or capital gains except when your investment is through a tax-advantaged investment plan.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

A, B, C, R & IS Classes

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

R6 Class

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund’s related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

What are the Fund’s Investment Strategies?

While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this Prospectus.

Primarily through investment in foreign companies in developed and emerging markets, the Fund attempts to achieve long-term capital appreciation in excess of the returns of broad world markets over long time periods. The Fund may invest in equity securities of any style and/or size, including companies with large, medium or small market capitalizations.

The Fund has a unique approach to investing internationally. In selecting securities, the Fund’s Adviser focuses first on country selection by seeking to identify countries whose stock markets appear attractively valued relative to other countries, have better growth prospects, have attractive macroeconomic forces working in their favor and evidence other factors which the Adviser has identified as being correlated with market outperformance. Once a country’s stock market has been selected for investment, the Adviser uses bottom up stock research and optimization models to select a group of stocks which give broad exposure to the targeted market. The models’ stock selection criteria includes among other things, growth indicators, valuation indicators and corporate quality indicators. The Adviser believes that when this country and stock selection is performed such selectivity creates a greater potential for higher returns as compared to spreading investments across many markets.

The Adviser uses its proprietary country analysis methodology, analyzing each country’s aggregate macroeconomic, company fundamental and market sentiment measures, to determine which foreign markets are likely to generate the highest returns.

The Adviser believes that foreign markets most worthy of investment may have the following characteristics, among others:

- rising earnings expectations;
- lower valuation relative to growth;
- favorable economic environments;
- strong sovereign and corporate quality; and
- positive technical factors.

Countries considered for investment must satisfy the Adviser’s criteria for political and economic stability, strength of financial systems and credit quality. After identifying those countries it believes are worthy of investment, the Adviser uses a global equity optimization process to invest in companies across the industries driving economic growth in the selected countries. This sophisticated process is intended to enable the Adviser to develop a portfolio that captures substantially all of the combined top-ranked countries’ stock market movements with a select group of companies per selected country. Each company must meet the Adviser’s standards for market and industry representation, financial condition, credit rating and liquidity. A minimum of 50% of the Fund’s net assets is invested in developed markets. For purposes of this policy, any investment of the Fund which provides exposure to a developed market, including the holding of or exposure to currencies of developed markets, will be included as a developed market investment.
The Fund invests, under normal conditions, primarily in equity securities of foreign-domiciled, publicly traded companies worldwide. Equity securities may include common stocks, depository receipts, warrants, convertible bonds, debentures and convertible preferred stocks, as well as shares of exchange-traded funds (ETFs). The Fund may also buy or sell foreign currencies (which may be implemented through derivative contracts such as forward or future contracts) in lieu of or in addition to non-dollar denominated foreign equity securities in order to increase or decrease its exposure to foreign equity and/or currency markets. This would permit the Fund to take long positions on currencies the Adviser believes will increase in value and take short positions on currencies that the Adviser believes will decrease in value regardless of the Fund’s security holdings in the applicable currency. Additionally, from time to time, the Fund may hedge against losses on securities held in the Fund or the currencies in which the securities are denominated by obtaining short exposure on an equity index, security or currency through a futures or forward contract or other derivative instrument. Further, the Fund is not limited in the portion of its investments that are denominated in either foreign currency or in U.S. dollars. The Fund may invest in investment companies, including ETFs in order to implement its investment strategy.

The Fund may use derivative contracts and/or hybrid instruments to implement elements of its investment strategy. For example, the Fund may use derivative contracts or hybrid instruments to increase or decrease the portfolio’s exposure to the investment(s) underlying the derivative or hybrid instrument in an attempt to benefit from changes in the value of the underlying investment(s). Additionally, by way of example, the Fund may use derivative contracts in an attempt to:

- obtain premiums from the sale of derivative contracts;
- realize gains from trading a derivative contract; or
- hedge against potential losses.

There can be no assurance that the Fund’s use of derivative contracts or hybrid instruments will work as intended.

TEMPORARY INVESTMENTS

The Fund may temporarily depart from its principal investment strategies by investing its assets in shorter-term debt securities and similar obligations or holding cash. It may do this in response to unusual circumstances, such as: adverse market, economic or other conditions (for example, to help avoid potential losses, or during periods when there is a shortage of appropriate securities); to maintain liquidity to meet shareholder redemptions; or to accommodate cash inflows. It is possible that such investments could affect the Fund’s investment returns and/or the ability to achieve the Fund’s investment objectives.

What are the Fund’s Principal Investments?

The following provides general information on the Fund’s principal investments. The Fund’s Statement of Additional Information (SAI) provides information about the Fund’s non-principal investments and may provide additional information about the Fund’s principal investments.

EQUITY SECURITIES

Equity securities represent a share of an issuer’s earnings and assets, after the issuer pays its liabilities. The Fund cannot predict the income it will receive from equity securities because issuers generally have discretion as to the payment of any dividends or distributions. However, equity securities offer greater potential for appreciation than many other types of securities, because their value increases directly with the value of the issuer’s business.

The following describes the equity securities in which the Fund principally invests.

Common Stocks

Common stocks are the most prevalent type of equity security. Common stocks receive the issuer’s earnings after the issuer pays its creditors and any preferred stockholders. As a result, changes in an issuer’s earnings directly influence the value of its common stock.

Preferred Stocks

Preferred stocks have the right to receive specified dividends or distributions before the issuer makes payments on its common stock. Some preferred stocks also participate in dividends and distributions paid on common stock. Preferred stocks may also permit the issuer to redeem the stock. The Fund may also treat such redeemable preferred stock as a fixed-income security.
Warrants

Warrants give the Fund the option to buy the issuer’s equity securities at a specified price (the “exercise price”) at a specified future date (the “expiration date”). The Fund may buy the designated securities by paying the exercise price before the expiration date. Warrants may become worthless if the price of the stock does not rise above the exercise price by the expiration date. This increases the market risks of warrants as compared to the underlying security. Rights are the same as warrants, except companies typically issue rights to existing stockholders.

Foreign Securities

Foreign securities are securities of issuers based outside the United States. The Fund considers an issuer to be based outside the United States if:
- it is organized under the laws of, or has a principal office located in, another country;
- the principal trading market for its securities is in another country; or
- it (directly or through its consolidated subsidiaries) derived in its most current fiscal year at least 50% of its total assets, capitalization, gross revenue or profit from goods produced, services performed or sales made in another country.

Foreign securities are primarily denominated in foreign currencies. Along with the risks normally associated with domestic securities of the same type, foreign securities are subject to currency risks and risks of foreign investing. Trading in certain foreign markets is also subject to liquidity risks.

Foreign Exchange Contracts

In order to convert U.S. dollars into the currency needed to buy a foreign security, or to convert foreign currency received from the sale of a foreign security into U.S. dollars, the Fund may enter into spot currency trades. In a spot trade, the Fund agrees to exchange one currency for another at the current exchange rate. The Fund may also enter into derivative contracts in which a foreign currency is an underlying asset. The exchange rate for currency derivative contracts may be higher or lower than the spot exchange rate. Use of these derivative contracts may increase or decrease the Fund’s exposure to currency risks.

Depositary Receipts and Domestically Traded Securities of Foreign Issuers (A Type of Foreign Equity Security)

Depositary receipts represent interests in underlying securities issued by a foreign company. Depositary receipts are not traded in the same market as the underlying security. The foreign securities underlying American Depositary Receipts (ADRs) are traded outside the United States. ADRs provide a way to buy shares of foreign-based companies in the United States rather than in overseas markets. ADRs are also traded in U.S. dollars, eliminating the need for foreign exchange transactions. The Fund may also invest in securities issued directly by foreign companies and traded in U.S. dollars in U.S. markets. The foreign securities underlying European Depositary Receipts (EDRs), Global Depositary Receipts (GDRs) and International Depositary Receipts (IDRs), are traded globally or outside the United States. Depositary receipts involve many of the same risks of investing directly in foreign securities, including currency risks and risks of foreign investing.

Fixed-Income Securities

Fixed-income securities pay interest, dividends or distributions at a specified rate. The rate may be a fixed percentage of the principal or may be adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time. Fixed-income securities provide more regular income than equity securities. However, the returns on fixed-income securities are limited and normally do not increase with the issuer’s earnings. This limits the potential appreciation of fixed-income securities as compared to equity securities.

A security’s yield measures the annual income earned on a security as a percentage of its price. A security’s yield will increase or decrease depending upon whether it costs less (a “discount”) or more (a “premium”) than the principal amount. If the issuer may redeem the security before its scheduled maturity, the price and yield on a discount or premium security may change based upon the probability of an early redemption. Securities with higher risks generally have higher yields.

The following describes the fixed-income securities in which the Fund principally invests:

Convertible Securities (A Fixed-Income Security)

Convertible securities are fixed-income securities that the Fund has the option to exchange for equity securities at a specified conversion price. The option allows the Fund to realize additional returns if the market price of the equity securities exceeds the conversion price. For example, the Fund may hold fixed-income securities that are convertible into shares of common stock at a conversion price of $10 per share. If the market value of the shares of common stock reached $12, the Fund could realize an additional $2 per share by converting its fixed-income securities.
Convertible securities have lower yields than comparable fixed-income securities. In addition, at the time a convertible security is issued, the conversion price exceeds the market value of the underlying equity securities. Thus, convertible securities may provide lower returns than non-convertible, fixed-income securities or equity securities depending upon changes in the price of the underlying equity securities. However, convertible securities permit the Fund to realize some of the potential appreciation of the underlying equity securities with less risk of losing its initial investment.

The Fund treats convertible securities as both fixed-income and equity securities for purposes of its investment policies and limitations, because of their unique characteristics.

**DERIVATIVE CONTRACTS**

Derivative contracts are financial instruments that require payments based upon changes in the values of designated securities, commodities, currencies, indices, or other assets or instruments including other derivative contracts, (each a “Reference Instrument” and collectively, “Reference Instruments”). Each party to a derivative contract may sometimes be referred to as a counterparty. Some derivative contracts require payments relating to an actual, future trade involving the Reference Instrument. These types of derivatives are frequently referred to as “physically settled” derivatives. Other derivative contracts require payments relating to the income or returns from, or changes in the market value of, a Reference Instrument. These types of derivatives are known as “cash-settled” derivatives, since they require cash payments in lieu of delivery of the Reference Instrument.

Many derivative contracts are traded on securities or commodities exchanges. In this case, the exchange sets all the terms of the contract except for the price. Investors make payments due under their contracts through the exchange. Most exchanges require investors to maintain margin accounts through their brokers to cover their potential obligations to the exchange. Parties to the contract make (or collect) daily payments to the margin accounts to reflect losses (or gains) in the value of their contracts. This protects investors against potential defaults by the other party to the contract. Trading contracts on an exchange also allows investors to close out their contracts by entering into offsetting contracts.

The Fund may also trade derivative contracts over-the-counter (OTC) in transactions negotiated directly between the Fund and a financial institution. OTC contracts do not necessarily have standard terms, so they may be less liquid and more difficult to close out than exchange-traded contracts. In addition, OTC contracts with more specialized terms may be more difficult to value than exchange-traded contracts, especially in times of financial stress.

Regulations enacted by the Commodity Futures Trading Commission (the CFTC) under the Dodd-Frank Wall Street Reform and Consumer Protection Act may require the Fund to clear certain derivative contracts through a clearinghouse or central counterparty (a CCP). To clear a derivative through the CCP, the Fund will submit the contract to, and post margin with, a futures commission merchant (FCM) that is a clearinghouse member. The Fund may enter into the swap with a financial institution other than the FCM (the “Executing Dealer”) and arrange for the contract to be transferred to the FCM for clearing. It may also enter into the contract with the FCM itself. If the Fund must centrally clear a transaction, the CFTC’s regulations may also require that the derivative be entered into over a market facility that is known as a “swap execution facility” or SEF. Also, in the future, the CFTC’s regulations may require that certain electronically traded contracts be entered into over SEFs, even if those contracts are not subject to mandatory central clearing. The CCP, SEF, FCM and Executing Dealer are all subject to regulatory oversight by the CFTC. Similar regulatory requirements will apply to contracts that are subject to the jurisdiction of the Securities and Exchange Commission (SEC), although the SEC has not yet finalized its regulations.

Depending on how the Fund uses derivative contracts and the relationships between the market value of a derivative contract and the Reference Instrument, derivative contracts may increase or decrease the Fund’s exposure to the risks of the Reference Instrument, and may also expose the Fund to liquidity and leverage risks. OTC contracts also expose the Fund to credit risks in the event that a counterparty defaults on the contract, although this risk may be mitigated by submitting the contract for clearing through a CCP.

Payment obligations arising in connection with derivative contracts are frequently required to be secured with margin (which is commonly called “collateral”). To the extent necessary to meet such requirements, the Fund may purchase U.S. Treasury and/or government agency securities.

The Fund may invest in a derivative contract if it is permitted to own, invest in, or otherwise have economic exposure to the Reference Instrument. The Fund is not required to own a Reference Instrument in order to buy or sell a derivative contract relating to that Reference Instrument. The Fund may trade in the following specific types and/or combinations of derivative contracts:

**Futures Contracts (A Type of Derivative)**

Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a Reference Instrument at a specified price, date and time. Entering into a contract to buy a Reference Instrument is commonly referred to as buying a contract or holding a long position in the asset. Entering into a contract to sell a Reference Instrument is commonly referred to as selling a contract or holding a short position in the Reference Instrument.
Futures contracts are considered to be commodity contracts. The Fund has claimed an exclusion from the definition of the term “commodity pool operator” under the Commodity Exchange Act and, therefore, is not subject to registration or regulation as a commodity pool operator under that Act. Futures contracts traded OTC are frequently referred to as forward contracts. The Fund can buy or sell financial futures (such as interest rate futures, index futures and security futures), as well as currency futures and currency forward contracts.

**Option Contracts (A Type of Derivative)**

Option contracts (also called “options”) are rights to buy or sell a Reference Instrument for a specified price (the “exercise price”) during, or at the end of, a specified period. The seller (or “writer”) of the option receives a payment, or premium, from the buyer, which the writer keeps regardless of whether the buyer uses (or exercises) the option. A call option gives the holder (buyer) the right to buy the Reference Instrument from the seller (writer) of the option. A put option gives the holder the right to sell the Reference Instrument to the writer of the option. Options may be bought or sold on a wide variety of Reference Instruments. Options that are written on futures contracts will be subject to margin requirements similar to those applied to futures contracts.

**Swap Contracts (A Type of Derivative)**

A swap contract (also known as a “swap”) is a type of derivative contract in which two parties agree to pay each other (swap) the returns derived from Reference Instruments. Swaps do not always involve the delivery of the Reference Instruments by either party, and the parties might not own the Reference Instruments underlying the swap. The payments are usually made on a net basis so that, on any given day, the Fund would receive (or pay) only the amount by which its payment under the contract is less than (or exceeds) the amount of the other party’s payment. Swap agreements are sophisticated instruments that can take many different forms and are known by a variety of names. Common types of swaps in which the Fund may invest include interest rate swaps, caps and floors, total return swaps, credit default swaps and currency swaps.

**OTHER INVESTMENTS, TRANSACTIONS, TECHNIQUES**

**Hybrid Instruments**

Hybrid instruments combine elements of two different kinds of securities or financial instruments (such as a derivative contract). Frequently, the value of a hybrid instrument is determined by reference to changes in the value of a Reference Instrument (that is a designated security, commodity, currency, index or other asset or instrument including a derivative contract). The Fund may use hybrid instruments only in connection with permissible investment activities. Hybrid instruments can take on many forms including, but not limited to, the following forms. First, a common form of a hybrid instrument combines elements of a derivative contract with those of another security (typically a fixed-income security). In this case all or a portion of the interest or principal payable on a hybrid security is determined by reference to changes in the price of a Reference Instrument. Second, a hybrid instrument may also combine elements of a fixed-income security and an equity security. Third, hybrid instruments may include convertible securities with conversion terms related to a Reference Instrument.

Depending on the type and terms of the hybrid instrument, its risks may reflect a combination of the risks of investing in the Reference Instrument with the risks of investing in other securities, currencies and derivative contracts. Thus, an investment in a hybrid instrument may entail significant risks in addition to those associated with traditional investments or the Reference Instrument. Hybrid instruments are also potentially more volatile than traditional securities or the Reference Instrument. Moreover, depending on the structure of the particular hybrid, it may expose the Fund to leverage risks or carry liquidity risks.

**Securities Lending**

The Fund may lend portfolio securities to borrowers that the Adviser deems creditworthy. In return, the Fund receives cash or liquid securities from the borrower as collateral. The borrower must furnish additional collateral if the market value of the loaned securities increases. Also, the borrower must pay the Fund the equivalent of any dividends or interest received on the loaned securities.

The Fund will reinvest cash collateral in securities that qualify as an acceptable investment for the Fund. However, the Fund must pay interest to the borrower for the use of cash collateral.
Loans are subject to termination at the option of the Fund or the borrower. The Fund will not have the right to vote on securities while they are on loan. However, the Fund will attempt to terminate a loan in an effort to reacquire the securities in time to vote on matters that are deemed to be material by the Adviser. There can be no assurance that the Fund will have sufficient notice of such matters to be able to terminate the loan in time to vote thereon. The Fund may pay administrative and custodial fees in connection with a loan and may pay a negotiated portion of the interest earned on the cash collateral to a securities lending agent or broker. Securities lending activities are subject to interest rate risks and credit risks. These transactions create leverage risks.

**Asset Segregation**

In order to secure its obligations in connection with derivative contracts or special transactions, the Fund will either own the underlying assets, enter into offsetting transactions or set aside cash or readily marketable securities. This requirement may cause the Fund to miss favorable trading opportunities, due to a lack of sufficient cash or readily marketable securities. This requirement may also cause the Fund to realize losses on offsetting or terminated derivative contracts or special transactions.

**Investing in Securities of Other Investment Companies**

The Fund may invest its assets in securities of other investment companies, including the securities of affiliated money market funds, as an efficient means of implementing its investment strategies and/or managing its uninvested cash. These other investment companies are managed independently of the Fund and incur additional fees and/or expenses which would, therefore, be borne indirectly by the Fund in connection with any such investment. However, the Adviser believes that the benefits and efficiencies of this approach should outweigh the potential additional fees and/or expenses. The Fund may invest in money market securities directly.

Additionally, the Fund may invest in ETFs. As with traditional mutual funds, ETFs charge asset-based fees, although these fees tend to be relatively low. ETFs do not charge initial sales charges or redemption fees and investors pay only customary brokerage fees to buy and sell ETF shares.

What are the Specific Risks of Investing in the Fund?

The following provides general information on the risks associated with the Fund’s principal investments. Any additional risks associated with the Fund’s non-principal investments are described in the Fund’s SAI. The Fund’s SAI also may provide additional information about the risks associated with the Fund’s principal investments.

**STOCK MARKET RISK**

The value of equity securities in the Fund’s portfolio will rise and fall. These fluctuations could be a sustained trend or a drastic movement. The Fund’s portfolio will reflect changes in prices of individual portfolio stocks or general changes in stock valuations. Consequently, the Fund’s Share price may decline. The Adviser attempts to manage market risk by limiting the amount the Fund invests in each company’s equity securities. However, diversification will not protect the Fund against widespread or prolonged declines in the stock market.

Information publicly available about a company, whether from the company’s financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company’s shares in the market. The price of a company’s shares depends significantly on the information publicly available about the company. The restatement of a company’s financial statements or corrections to other information regarding a company or its business may adversely affect the price of its shares, as would allegations of fraud or other misconduct by the company’s management. The Fund may also be disadvantaged if some market participants have access to material information not readily available to other market participants, including the Fund.

Economic, political and financial conditions may from time to time, and for varying periods of time, cause volatility, illiquidity and/or other potentially adverse effects in the financial markets. The commencement, continuation or ending of government policies and economic stimulus programs, changes in monetary policy, increases or decreases in interest rates, or other factors or events that affect the financial markets, including the fixed-income markets, for example, may contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects, which could negatively impact the Fund’s performance. A general rise in interest rates, which could result from a change in government policies, has the potential to cause investors to move out of fixed-income securities on a large scale, which may increase redemptions from funds that hold large amounts of fixed-income securities and may result in decreased liquidity and increased volatility in the fixed-income markets.
RISK OF FOREIGN INVESTING

Foreign securities pose additional risks because foreign economic or political conditions may be less favorable than those of the United States. Securities in foreign markets may also be subject to taxation policies that reduce returns for U.S. investors.

Foreign companies may not provide information (including financial statements) as frequently or to as great an extent as companies in the United States. Foreign companies may also receive less coverage than U.S. companies by market analysts and the financial press. In addition, foreign countries may lack uniform accounting, auditing and financial reporting standards or regulatory requirements comparable to those applicable to U.S. companies. These factors may prevent the Fund and its Adviser from obtaining information concerning foreign companies that is as frequent, extensive and reliable as the information available concerning companies in the United States.

Foreign countries may have restrictions on foreign ownership of securities or may impose exchange controls, capital flow restrictions or repatriation restrictions which could adversely affect the liquidity of the Fund’s investments.

Legal remedies available to investors in certain foreign countries may be more limited than those available with respect to investments in the United States or in other foreign countries.

The laws of some foreign countries may limit the Fund’s ability to invest in securities of certain issuers organized under the laws of those countries.

RISK OF INVESTING IN ADRS AND DOMESTICALLY TRADED SECURITIES OF FOREIGN ISSUERS

Because the Fund may invest in ADRs and other domestically traded securities of foreign companies, the Fund’s Share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case.

CURRENCY RISK

Exchange rates for currencies fluctuate daily. The combination of currency risk and market risks tends to make securities traded in foreign markets more volatile than securities traded exclusively in the United States. The Adviser attempts to manage currency risk by limiting the amount the Fund invests in securities denominated in a particular currency. However, diversification will not protect the Fund against a general increase in the value of the U.S. dollar relative to other currencies.

Investing in currencies or securities denominated in a foreign currency, entails risk of being exposed to a currency that may not fully reflect the strengths and weaknesses of the economy of the country or region utilizing the currency. In addition, it is possible that a currency (such as, for example, the euro) could be abandoned in the future by countries that have already adopted its use, and the effects of such an abandonment on the applicable country and the rest of the countries utilizing the currency are uncertain but could negatively affect the Fund’s investments denominated in the currency. If a currency used by a country or countries is replaced by another currency, the Fund’s Adviser would evaluate whether to continue to hold any investments denominated in such currency, or whether to purchase investments denominated in the currency that replaces such currency, at the time. Such investments may continue to be held, or purchased, to the extent consistent with the Fund’s investment objective and permitted under applicable law.

Many countries rely heavily upon export-dependent businesses and any strength in the exchange rate between a currency and the U.S. dollar or other currencies can have either a positive or a negative effect upon corporate profits and the performance of investments in the country or region utilizing the currency. Adverse economic events within such country or region may increase the volatility of exchange rates against other currencies, subjecting the Fund’s investments denominated in such country’s or region’s currency to additional risks.

EUROZONE RELATED RISK

A number of countries in the European Union (EU) have experienced, and may continue to experience, severe economic and financial difficulties. Additional EU member countries may also fall subject to such difficulties. These events could negatively affect the value and liquidity of the Fund’s investments in euro-denominated securities and derivatives contracts, securities of issuers located in the EU or with significant exposure to EU issuers or countries. If the euro is dissolved entirely, the legal and contractual consequences for holders of euro-denominated obligations and derivative contracts would be determined by laws in effect at such time. Such investments may continue to be held, or purchased, to the extent consistent with the Fund’s investment objective and permitted under applicable law. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Shares.
Certain countries in the EU have had to accept assistance from supra-governmental agencies such as the International Monetary Fund, the European Stability Mechanism (the ESM) or other supra-governmental agencies. The European Central Bank has also been intervening to purchase Eurozone debt in an attempt to stabilize markets and reduce borrowing costs. There can be no assurance that these agencies will continue to intervene or provide further assistance and markets may react adversely to any expected reduction in the financial support provided by these agencies. Responses to the financial problems by European governments, central banks and others including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences.

In addition, one or more countries may abandon the euro and/or withdraw from the EU. The impact of these actions, especially if they occur in a disorderly fashion, could be significant and far-reaching.

**RISK OF INVESTING IN EMERGING MARKET COUNTRIES**

Securities issued or traded in emerging markets generally entail greater risks than securities issued or traded in developed markets. For example, their prices may be significantly more volatile than prices in developed countries. Emerging markets economies may also experience more severe downturns (with corresponding currency devaluations) than developed economies.

Emerging market countries may have relatively unstable governments and may present the risk of nationalization of businesses, expropriation, confiscatory taxation or, in certain instances, reversion to closed market, centrally planned economies.

**LIQ uidITY RISK**

Trading opportunities are more limited for equity securities that are not widely held. This may make it more difficult to sell or buy a security at a favorable price or time. Consequently, the Fund may have to accept a lower price to sell a security, sell other securities to raise cash or give up an investment opportunity, any of which could have a negative effect on the Fund’s performance. Inef nquent trading of securities may also lead to an increase in their price volatility.

Liquidity risk also refers to the possibility that the Fund may not be able to sell a security or close out a derivative contract when it wants to. If this happens, the Fund will be required to continue to hold the security or keep the position open, and the Fund could incur losses.

OTC derivative contracts generally carry greater liquidity risk than exchange-traded contracts. This risk may be increased in times of financial stress, if the trading market for OTC derivative contracts becomes restricted.

**RISK RELATED TO COMPANY CAPITALIZATION**

The Fund may invest in companies with market capitalizations of any size, including small-capitalization and mid-capitalization (or “small-cap” and “mid-cap”) companies. Market capitalization is determined by multiplying the number of a company’s outstanding shares by the current market price per share. Larger, more established, companies may be unable to respond quickly to new competitive challenges, like price competition, changes in consumer tastes or innovative smaller competitors or innovative products. Small-cap companies may have unproven business strategies and track records, less liquid stock, a more volatile share price and limited access to capital, which make them more likely to fail than larger companies.

Mid-cap companies also often have narrower markets, and limited managerial and financial resources, more volatile performance and greater risk of failure, compared to larger, more established, companies. The performance of small-cap and mid-cap companies can be more volatile and they face greater risk of business failure. These factors could increase the volatility of the Fund’s portfolio and performance. Shareholders should expect that the value of the Fund’s Shares will be more volatile than a fund that invests exclusively in large-cap companies.

**SECTOR RISK**

Companies with similar characteristics may be grouped together in broad categories called sectors. Sector risk is the possibility that a certain sector may underperform other sectors or the market as a whole. As the Adviser allocates more of the Fund’s portfolio holdings to a particular sector, the Fund’s performance will be more susceptible to any economic, business or other developments which generally affect that sector.

**RISK OF INVESTING IN DERIVATIVE CONTRACTS AND HYBRID INSTRUMENTS**

The Fund’s exposure to derivative contracts and hybrid instruments (either directly or through its investment in another investment company) involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. First, changes in the value of the derivative contracts and hybrid instruments in which the Fund invests may not be correlated with changes in the value of the underlying Reference Instruments or, if they are correlated, may move in the opposite direction than originally anticipated. Second, while some strategies involving derivatives may reduce the risk of loss, they may also reduce potential gains or, in some cases, result in losses by offsetting favorable price movements in portfolio holdings. Third, there is a risk that derivative contracts and hybrid instruments may be erroneously priced or improperly valued and, as a result, the Fund may need to make increased cash payments to the
counterparty. Fourth, exposure to derivative contracts and hybrid instruments may have tax consequences to the Fund and its shareholders. For example, derivative contracts and hybrid instruments may cause the Fund to realize increased ordinary income or short-term capital gains (which are treated as ordinary income for Federal income tax purposes) and, as a result, may increase taxable distributions to shareholders. In addition, under certain circumstances certain derivative contracts and hybrid instruments may cause the Fund to: (a) incur an excise tax on a portion of the income related to those contracts and instruments; and/or (b) reclassify, as a return of capital, some or all of the distributions previously made to shareholders during the fiscal year as dividend income. Fifth, a common provision in OTC derivative contracts permits the counterparty to terminate any such contract between it and the Fund, if the value of the Fund’s total net assets declines below a specified level over a given time period. Factors that may contribute to such a decline (which usually must be substantial) include significant shareholder redemptions and/or a marked decrease in the market value of the Fund’s investments. Any such termination of the Fund’s OTC derivative contracts may adversely affect the Fund (for example, by increasing losses and/or costs, and/or preventing the Fund from fully implementing its investment strategies). Sixth, the Fund may use a derivative contract to benefit from a decline in the value of a Reference Instrument. If the value of the Reference Instrument declines during the term of the contract, the Fund makes a profit on the difference (less any payments the Fund is required to pay under the terms of the contract). Any such strategy involves risk. There is no assurance that the Reference Instrument will decline in value during the term of the contract and make a profit for the Fund. The Reference Instrument may instead appreciate in value creating a loss for the Fund. Seventh, a default or failure by a CCP or an FCM (also sometimes called a “futures broker”), or the failure of a contract to be transferred from an Executing Dealer to the FCM for clearing, may expose the Fund to losses, increase its costs, or prevent the Fund from entering or exiting derivative positions, accessing margin, or fully implementing its investment strategies. The central clearing of a derivative and trading of a contract over a SEF could reduce the liquidity in, or increase costs of entering into or holding, any contracts. Finally, derivative contracts and hybrid instruments may also involve other risks described in this Prospectus or in the Fund’s SAI, such as stock market, interest rate, credit, currency, liquidity and leverage risks.

COUNTERPARTY CREDIT RISK

Credit risk includes the possibility that a party to a transaction involving the Fund will fail to meet its obligations. This could cause the Fund to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategy.

LEVERAGE RISK

Leverage risk is created when an investment, which includes, for example, an investment in a derivative contract, exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund’s risk of loss and potential for gain. Investments can have these same results if their returns are based on a multiple of a specified index, security or other benchmark.

CUSTODIAL SERVICES AND RELATED INVESTMENT COSTS

Custodial services and other costs relating to investment in international securities markets generally are more expensive than in the United States. Such markets have settlement and clearance procedures that differ from those in the United States. In certain markets, there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. The inability of the Fund to make intended securities purchases due to settlement problems could cause the Fund to miss attractive investment opportunities. Inability to dispose of a portfolio security caused by settlement problems could result in losses to the Fund due to a subsequent decline in value of the portfolio security. In addition, security settlement and clearance procedures in some emerging market countries may not fully protect the Fund against loss of its assets.

EXCHANGE-TRADED FUNDS RISK

An investment in an ETF generally presents the same primary risks as an investment in a conventional fund (i.e., one that is not exchange-traded) that has the same investment objectives, strategies and policies. The price of an ETF can fluctuate up or down, and the Fund could lose money investing in an ETF if the prices of the securities owned by the ETF go down. In addition, ETFs may be subject to the following risks that do not apply to conventional funds: (i) the market price of an ETF’s shares may trade above or below their net asset value; (ii) an active trading market for an ETF’s shares may not develop or be maintained; or (iii) trading of an ETF’s shares may be halted if the listing exchange’s officials deem such action appropriate, the shares are delisted from the exchange or the activation of market-wide “circuit breakers” (which are tied to large decreases in stock prices) halts stock trading generally.
TECHNOLOGY RISK

The Adviser uses various technologies in managing the Fund, consistent with its investment objective and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

What Do Shares Cost?

CALCULATION OF NET ASSET VALUE

When the Fund receives your transaction request in proper form (as described in this Prospectus), it is processed at the next calculated net asset value of a Share (NAV) plus any applicable front-end sales charge (“public offering price”). A Share’s NAV is determined as of the end of regular trading on the New York Stock Exchange (NYSE) (normally 4:00 p.m. Eastern time), each day the NYSE is open. The Fund calculates the NAV of each class by valuing the assets allocated to the Share’s class, subtracting the liabilities allocated to the class and dividing the balance by the number of Shares of the class outstanding. The Fund’s current NAV and/or public offering price may be found at FederatedInvestors.com, via online news sources and in certain newspapers.

You can purchase, redeem or exchange Shares any day the NYSE is open.

When the Fund holds securities that trade principally in foreign markets on days the NYSE is closed, the value of the Fund’s assets may change on days you cannot purchase or redeem Shares. This may also occur when the U.S. markets for fixed-income securities are open on a day the NYSE is closed.

In calculating its NAV, the Fund generally values investments as follows:

- Equity securities listed on an exchange or traded through a regulated market system are valued at their last reported sale price or official closing price in their principal exchange or market.
- Fixed-income securities acquired with remaining maturities greater than 60 days are fair valued using price evaluations provided by a pricing service approved by the Board of Trustees (“Board”).
- Fixed-income securities acquired with remaining maturities of 60 days or less are valued at their cost (adjusted for the accretion of any discount or amortization of any premium).
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and asked quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Board.

If the Fund cannot obtain a price or price evaluation from a pricing service for an investment, the Fund may attempt to value the investment based upon the mean of bid and asked quotations, or fair value the investment based on price evaluations, from one or more dealers. If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, or if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable time (for example, within five business days after a new security is delivered to the Fund), the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could purchase or sell an investment at the price used to calculate the Fund’s NAV.

Shares of other mutual funds are valued based upon their reported NAVs. The prospectuses for these mutual funds explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

FAIR VALUATION AND SIGNIFICANT EVENTS PROCEDURES

The Board has ultimate responsibility for determining the fair value of investments for which market quotations are not readily available. The Board has appointed a Valuation Committee comprised of officers of the Fund, the Adviser and the Adviser’s affiliated companies to assist in this responsibility and in overseeing the calculation of the NAV. The Board has also authorized the use of pricing services recommended by the Valuation Committee to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Board. The Board periodically reviews and approves the fair valuations made by the Valuation Committee and any changes made to the procedures. The Fund’s SAI discusses the methods used by pricing services and the Valuation Committee to value investments.
Using fair value to price investments may result in a value that is different from an investment’s most recent closing price and from the prices used by other mutual funds to calculate their NAVs. The Valuation Committee generally will not change an investment’s fair value in the absence of new information relating to the investment or its issuer, such as changes in the issuer’s business or financial results, or relating to external market factors, such as trends in the market values of comparable securities. This may result in less frequent, and larger, changes in fair values as compared to prices based on market quotations or price evaluations from pricing services or dealers.

The Board also has adopted procedures requiring an investment to be priced at its fair value whenever the Adviser determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment’s value will change in response to the event and a reasonable basis for quantifying the resulting change in value.

Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- With respect to securities traded principally in foreign markets, significant trends in U.S. equity markets or in the trading of foreign securities index futures contracts;
- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded; and
- Announcements concerning matters such as acquisitions, recapitalizations or litigation developments or a natural disaster affecting the issuer’s operations or regulatory changes or market developments affecting the issuer’s industry.

The Valuation Committee uses a pricing service to determine the fair value of equity securities traded principally in foreign markets when the Adviser determines that there has been a significant trend in the U.S. equity markets or in index futures trading. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Valuation Committee will determine the fair value of the investment using another method approved by the Board. The Board has ultimate responsibility for any fair valuations made in response to a significant event.

The fair valuation of securities following a significant event can serve to reduce arbitrage opportunities for short-term traders to profit at the expense of long-term investors in the Fund. For example, such arbitrage opportunities may exist when the market on which portfolio securities are traded closes before the Fund calculates its NAV, which is typically the case with Asian and European markets. However, there is no assurance that these significant event procedures will prevent dilution of the NAV by short-term traders. See “Account and Share Information – Frequent Trading Policies” for other procedures the Fund employs to deter such short-term trading.

SALES CHARGE INFORMATION

The following table summarizes the minimum investment amount and the maximum sales charge, if any, that you will pay on an investment in the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

<table>
<thead>
<tr>
<th>Shares Offered</th>
<th>Minimum Initial/Subsequent Investment Amounts</th>
<th>Maximum Sales Charges</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>$1,500/$100</td>
<td>5.50% 0.00%</td>
</tr>
<tr>
<td>B</td>
<td>$1,500/$100</td>
<td>None 5.50%</td>
</tr>
<tr>
<td>C</td>
<td>$1,500/$100</td>
<td>None 1.00%</td>
</tr>
</tbody>
</table>

1 The minimum initial and subsequent investment amounts for Individual Retirement Accounts (IRAs) are generally $250 and $100, respectively. There is no minimum initial or subsequent investment amount required for employer-sponsored retirement plans; however, such accounts remain subject to the Fund’s policy on “Accounts with Low Balances” as discussed later in this Prospectus. Please see “By Systematic Investment Program” for applicable minimum investment. Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund.

To maximize your return and minimize the sales charges and marketing fees, purchases of the B class are generally limited to $100,000 and purchases of the C class are generally limited to $1,000,000. Purchases equal to or in excess of these limits may be made in the A class. If your Shares are held on the books of the Fund in the name of a financial intermediary, you may be subject to rules of your financial intermediary that differ from those of the Fund. See “Purchase Restrictions on B Class and C Class” below. After the B class has been held for eight years from the date of purchase, they will automatically convert to the A class. This conversion is a non-taxable event.

2 Front-End Sales Charge is expressed as a percentage of public offering price. See “Sales Charge When You Purchase.”

3 See “Sales Charge When You Redeem.”
As shown in the table above, each class of Shares has a different sales charge structure. In addition, the ongoing annual operating expenses (expense ratios), as well as the compensation payable to financial intermediaries, also vary among the classes. Before you decide which class to purchase, you should review the different charges and expenses of each class carefully, in light of your personal circumstances, and consult with your financial intermediary.

Among the important factors to consider are the amount you plan to invest and the length of time you expect to hold your investment (for example, whether the investment is in connection with a long-term retirement program). You should also consider, for example, that it may be possible to reduce or eliminate the front-end sales charges imposed on purchases of the A class. Among other ways, the A class has a series of “breakpoints,” which means that the front-end sales charges decrease (and can be eliminated entirely) as the amount invested increases. (The breakpoint schedule is set out below, along with detailed information on ways to reduce, or eliminate, front-end sales charges.) On the other hand, the B class does not have front-end sales charges, but the deferred sales charges imposed on redemptions of the B class do not vary at all in relation to the amounts invested. Rather, these charges decrease with the passage of time (ultimately going to zero after Shares have been held for six full years). Finally, the C class does not have front-end sales charges, but do impose a contingent deferred sales charge only if redeemed within one year after purchase; however, the asset-based 12b-1 fees charged to the C class are greater than those charged to the A class and comparable to those charged to the B class.

You should also consider that the expense ratio for the A class will be lower than that for the B class or the C class. Thus, the fact that no front-end charges are ever imposed on purchases of the B class and C class does not always make them preferable to the A class.

SALES CHARGE WHEN YOU PURCHASE

The following table lists the sales charges which will be applied to your Share purchase, subject to the breakpoint discounts indicated in the table and described below.

A:

<table>
<thead>
<tr>
<th>Purchase Amount</th>
<th>Sales Charge as a Percentage of Public Offering Price</th>
<th>Sales Charge as a Percentage of NAV</th>
</tr>

<td>0.00%</td>
</tr>
</tbody>
</table>

1 A contingent deferred sales charge (CDSC) of 0.75% of the redemption amount applies to Shares originally purchased in an amount of $1 million or more and redeemed up to 24 months after purchase under certain investment programs where a financial intermediary received an advance payment on the transaction. CDSC exceptions may apply. See “Sales Charge When You Redeem.”

REDUCING THE SALES CHARGE WITH BREAKPOINT DISCOUNTS

Your investment may qualify for a reduction or elimination of the sales charge, also known as a breakpoint discount. The breakpoint discounts offered by the Fund are indicated in the table above.

You or your financial intermediary must notify the Fund’s Transfer Agent of eligibility for any applicable breakpoint discount at the time of purchase.

In order to receive the applicable breakpoint discount, it may be necessary at the time of purchase for you to inform your financial intermediary or the Transfer Agent of the existence of other accounts in which there are holdings eligible to be aggregated to meet a sales charge breakpoint (“Qualifying Accounts”). Qualifying Accounts mean those share accounts in the Federated funds held directly or through a financial intermediary or through a single-participant retirement account by you, your spouse, your parents (if you are under age 21) and/or your children under age 21, which can be linked using tax identification numbers (TINs), social security numbers (SSNs) or broker identification numbers (BINs). Accounts held through 401(k) plans and similar multi-participant retirement plans, or through “Section 529” college savings plans or those accounts which cannot be linked using TINs, SSNs or BINs, are not Qualifying Accounts.

In order to verify your eligibility for a breakpoint discount, you will be required to provide to your financial intermediary or the Transfer Agent certain information on your New Account Form and may be required to provide account statements regarding Qualifying Accounts. If you purchase through a financial intermediary, you may be asked to provide additional information and records as required by the financial intermediary. Failure to provide proper notification or verification of eligibility for a breakpoint discount may result in your not receiving a breakpoint discount to which you are otherwise
entitled. Breakpoint discounts apply only to your current purchase and do not apply retroactively to previous purchases. The sales charges applicable to the Shares offered in this Prospectus, and the breakpoint discounts offered with respect to such Shares, are described in full in this Prospectus. Because the Prospectus is available on Federated’s website free of charge, Federated does not disclose this information separately on the website.

**Contingent upon notification to the Transfer Agent, the sales charge at purchase of the A class only, may be reduced or eliminated by:**

**Larger Purchases**
- Purchasing the A class in greater quantities to reduce the applicable sales charge;

**Concurrent and Accumulated Purchases**
- Combining concurrent purchases of and/or current investments in the A class, B class, C class, F class and R class of any Federated fund made or held by Qualifying Accounts; the purchase amount used in determining the sales charge on your additional Share purchase will be calculated by multiplying the respective maximum public offering price times the number of the A class, B class, C class, F class and R class shares of any Federated fund currently held in Qualifying Accounts and adding the dollar amount of your current purchase; or

**Letter of Intent**
- Signing a letter of intent to purchase a qualifying amount of the A class within 13 months. (Call your financial intermediary or the Fund for more information.) The Fund’s custodian will hold Shares in escrow equal to the maximum applicable sales charge. If you complete the Letter of Intent, the Custodian will release the Shares in escrow to your account. If you do not fulfill the Letter of Intent, the Custodian will redeem the appropriate amount from the Shares held in escrow to pay the sales charges that were not applied to your purchases.

**PURCHASE RESTRICTIONS ON B CLASS AND C CLASS**

In order to maximize shareholder returns and minimize sales charges and marketing fees, an investor’s purchases of the B class are generally limited to $100,000 and an investor’s purchases of the C class are generally limited to $1,000,000 (except for employer-sponsored retirement plans held in omnibus accounts with respect to C Shares). In applying the limit, the dollar amount of the current purchase is added to the product obtained by multiplying the respective maximum public offering price times the number of the A class, B class, C class, F class and R class of any Federated fund currently held in linked Qualifying Accounts, as defined in the section entitled “Reducing the Sales Charge with Breakpoint Discounts.” If the sum of these two amounts would equal or exceed the limit, then the current purchase order will not be processed. Instead, the Distributor will attempt to contact the investor or the investor’s financial intermediary to offer the opportunity to convert the order to the A class. If your Shares are held on the books of the Fund in the name of a financial intermediary, you may be subject to rules of your financial intermediary that differ from those of the Fund.

**ELIMINATING THE SALES CHARGE**

Your investment may qualify for a sales charge waiver. Sales charge waivers offered by the Fund are listed below. In order to receive a sales charge waiver, you must inform your financial intermediary or the Transfer Agent at the time of each purchase that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund’s Transfer Agent. If you do not let your financial intermediary or the Transfer Agent know that your investment is eligible for a sales charge waiver at the time of purchase, you may not receive the waiver to which you may otherwise be entitled.

**Contingent upon notification to the Transfer Agent, the sales charge will be eliminated when you purchase Shares:**
- within 120 days of redeeming Shares of an equal or greater amount;
- through a program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary) and where the Financial Intermediary has agreed with the Distributor not to receive a dealer realallowance on purchases under such program;
- with reinvested dividends or capital gains;
- as a shareholder that originally became a shareholder of a Federated fund pursuant to the terms of an agreement and plan of reorganization which permits shareholders to acquire Shares at NAV; however, if you close your account with the transfer agent, or if you transfer your account to another financial intermediary, you may no longer receive a sales charge waiver;
as a Federated Life Member (Federated shareholders who originally were issued shares through the “Liberty Account,” which was an account for the Liberty Family of Funds on February 28, 1987, or who invested through an affinity group prior to August 1, 1987, into the Liberty Account) (A class only);
■ as a Trustee, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates, an employee of any financial intermediary that sells Shares according to a sales agreement with the Distributor, an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals; or
■ pursuant to the exchange privilege.
The sales charge will not be eliminated if you purchase Shares of the Fund through an exchange of shares of Federated Liberty U.S. Government Money Market Trust unless your Liberty shares were acquired through an exchange of shares on which the sales charge had previously been paid.

SALES CHARGE WHEN YOU REDEEM

Your redemption proceeds may be reduced by a sales charge, commonly referred to as a contingent deferred sales charge (CDSC). Shares otherwise subject to a CDSC will not be charged a CDSC at the time of an exchange; however, the CDSC will continue to be measured from the date of your original purchase. The CDSC schedule applicable to your original purchase will continue to apply to the shares you receive in an exchange.

To keep the sales charge as low as possible, the Fund redeems your Shares in this order:

■ Shares that are not subject to a CDSC; and
■ Shares held the longest. (To determine the number of years your Shares have been held, include the time you held shares of other Federated funds that have been exchanged for Shares of this Fund.)

The CDSC is then calculated using the Share price at the time of purchase or redemption, whichever is lower.

A:
If you make a purchase of the A class in the amount of $1 million or more and your financial intermediary received an advance commission on the sale, you will pay a 0.75% CDSC on any such Shares redeemed within 24 months of the purchase.

B:

<table>
<thead>
<tr>
<th>Shares Held Up To:</th>
<th>CDSC</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>7 Years or More</td>
<td>0.00%</td>
</tr>
</tbody>
</table>

C:
You will pay a 1.00% CDSC if you redeem Shares within 12 months of the purchase date.

Your redemption may qualify for a waiver of the CDSC. The CDSC waivers offered by the Fund are listed below. In order to receive a waiver of the CDSC, you must inform your financial intermediary or the Transfer Agent at the time of each redemption that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund’s Transfer Agent in order to take advantage of the waiver. If you do not let your financial intermediary or the Transfer Agent know that your redemption is eligible for a CDSC waiver at the time of redemption, you may not receive the waiver to which you may otherwise be entitled.

Contingent upon notification to the Transfer Agent, you will not be charged a CDSC when redeeming Shares:

■ following the death of the last surviving shareholder on the account or the post-purchase disability of all registered shareholders, as defined in Section 72(m)(7) of the Internal Revenue Code of 1986 (the beneficiary on an account with a Transfer on Death registration is deemed the last surviving shareholder on the account);
■ representing minimum required distributions from an IRA or other retirement plan to a shareholder who has attained the age of 70½;
■ purchased by Trustees, employees of the Fund, the Adviser, the Distributor and their affiliates, by employees of a financial intermediary that sells Shares according to a sales agreement with the Distributor, by the immediate family members of the above persons and by trusts, pension or profit-sharing plans for the above persons;
purchased through a program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary) and where the Financial Intermediary has agreed with the Distributor not to receive an advance commission on purchases under such program;

- purchased with reinvested dividends or capital gains;
- redeemed by the Fund when it closes an account for not meeting the minimum balance requirements;
- purchased pursuant to the exchange privilege, if the Shares were held for the applicable CDSC holding period (the holding period on the Shares purchased in the exchange will include the holding period of the Shares sold in the exchange);

**A Class Only**

- purchased in the amount of $1 million or more and redeemed within 24 months of purchase if the Shares were originally purchased through a program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary) and where the Financial Intermediary has agreed with the principal underwriter not to receive an advanced commission on purchases under such program;

**B Class Only**

- which are qualifying redemptions of the B class under a Systematic Withdrawal Program.

**How is the Fund Sold?**

The Fund offers six Share classes: Class A Shares (A), Class B Shares (B), Class C Shares (C), Class R Shares (R), Class R6 Shares (R6) and Institutional Shares (IS), each representing interests in a single portfolio of securities. All Share classes have different sales charges and/or other expenses which affect their performance. Please note that certain purchase restrictions may apply.

Under the Distributor’s Contract with the Fund, the Distributor, Federated Securities Corp., offers Shares on a continuous, best-efforts basis. The Distributor is a subsidiary of Federated Investors, Inc. (“Federated”).

**A, B & C Classes**

The Fund’s Distributor markets the A, B and C classes to institutions or to individuals, directly or through financial intermediaries.

A shareholder in the Fund’s A class or a shareholder in the Fund’s C class whose shares are not subject to a CDSC may convert their Shares into the IS class of the Fund if the shareholder meets the IS class eligibility criteria and investment minimum. Such conversion of classes should not result in a realization event for tax purposes. Contact your financial intermediary or call 1-800-341-7400 to convert your Shares.

**R Class**

The Fund’s Distributor markets the R class to 401(k) plans, 457 plans, employer sponsored 403(b) plans, profit sharing and money purchase pension plans, defined benefit plans and non-qualified deferred compensation plans and IRA Rollovers from such plans, directly or through financial intermediaries. The Fund’s Distributor may also market the R class to IRAs held through financial intermediaries who hold the IRAs in an omnibus account. The R class is generally available only to retirement plans (and IRA Rollovers from such plans) and IRAs where assets are held in omnibus accounts on the books of the Fund.

**IS Class**

The Fund’s Distributor markets the IS class to Eligible Investors, as described below. In connection with a request to purchase the IS class, you should provide documentation sufficient to verify your status as an Eligible Investor. As a general matter, the IS class is not available for direct investment by natural persons.

The following categories of Eligible Investors are not subject to any minimum initial investment amount for the purchase of the IS class (however, such accounts remain subject to the Fund’s policy on “Accounts with Low Balances” as discussed later in this Prospectus):

- An investor participating in a wrap program or other fee-based program sponsored by a financial intermediary;
- An investor participating in a no-load network or platform sponsored by a financial intermediary where Federated has entered into an agreement with the intermediary;
- A trustee/director, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates; an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals;
- An employer-sponsored retirement plan;
A trust institution investing on behalf of its trust customers;
- Additional sales to an investor (including a natural person) who owned the IS class of the Fund as of December 31, 2008;
- A Federated Fund;
- An investor (including a natural person) who acquired the IS class of a Federated fund pursuant to the terms of an agreement and plan of reorganization which permits the investor to acquire such shares; and
- In connection with an acquisition of an investment management or advisory business, or related investment services, products or assets, by Federated or its investment advisory subsidiaries, an investor (including a natural person) who: (1) becomes a client of an investment advisory subsidiary of Federated; or (2) is a shareholder or interest holder of a pooled investment vehicle or product that becomes advised or subadvised by a Federated investment advisory subsidiary as a result of such an acquisition other than as a result of a fund reorganization transaction pursuant to an agreement and plan of reorganization.

The following categories of Eligible Investors are subject to applicable minimum initial investment amounts for the purchase of the IS class (see “How to Purchase Shares” below):
- An investor, other than a natural person, purchasing the IS class directly from the Fund; and
- In connection with an initial purchase of the IS class through an exchange, an investor (including a natural person) who owned the IS class of another Federated fund as of December 31, 2008.

R6 Class

The Fund’s Distributor markets the R6 class to Eligible Investors, as described below. The R6 Shares are sold at net asset value and are not subject to any minimum initial or subsequent investment amounts. In connection with a request to purchase the R6 class, you should provide documentation sufficient to verify your status as an Eligible Investor.

R6 Shares do not carry sales commissions or pay Rule 12b-1 fees, or make similar payments to financial intermediaries. As a general matter, the R6 class is not available for direct investment by natural persons. Individual shareholders who purchase R6 Shares through retirement platforms or other intermediaries will not be eligible to hold R6 Shares outside of their respective plan or intermediary platform.

Following are categories of Eligible Investors:
- An investor participating in a wrap program or other fee-based program sponsored by a financial intermediary;
- An investor participating in a no-load network or platform sponsored by a financial intermediary where Federated has entered into an agreement with the intermediary;
- A trustee/director, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates; an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals;
- An employer-sponsored retirement plan;
- A trust institution investing on behalf of its trust customers;
- An investor, other than a natural person, purchasing Shares directly from the Fund;
- A Federated Fund;
- An investor (including a natural person) who acquired the R6 class of a Federated fund pursuant to the terms of an agreement and plan of reorganization which permits the investor to acquire such shares; and
- In connection with an acquisition of an investment management or advisory business, or related investment services, products or assets, by Federated or its investment advisory subsidiaries, an investor (including a natural person) who: (1) becomes a client of an investment advisory subsidiary of Federated; or (2) is a shareholder or interest holder of a pooled investment vehicle or product that becomes advised or subadvised by a Federated investment advisory subsidiary as a result of such an acquisition other than as a result of a fund reorganization transaction pursuant to an agreement and plan of reorganization.

Payments to Financial Intermediaries

The Fund and its affiliated service providers may pay fees as described below to financial intermediaries (such as broker-dealers, banks, investment advisers or third-party administrators) whose customers are shareholders of the Fund.
FRONT-END SALES CHARGE REALLOWANCES

The Distributor receives a front-end sales charge on certain Share sales. The Distributor pays a portion of this charge to financial intermediaries that are eligible to receive it (the “Dealer Reallowance”) and retains any remaining portion of the front-end sales charge.

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive a Dealer Reallowance as follows:

A:

<table>
<thead>
<tr>
<th>Purchase Amount</th>
<th>Dealer Reallowance as a Percentage of Public Offering Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than $50,000</td>
<td>5.00%</td>
</tr>
<tr>
<td>$50,000 but less than $100,000</td>
<td>4.00%</td>
</tr>
<tr>
<td>$100,000 but less than $250,000</td>
<td>3.25%</td>
</tr>
<tr>
<td>$250,000 but less than $500,000</td>
<td>2.25%</td>
</tr>
<tr>
<td>$500,000 but less than $1 million</td>
<td>1.80%</td>
</tr>
<tr>
<td>$1 million or greater</td>
<td>0.00%</td>
</tr>
</tbody>
</table>

ADVANCE COMMISSIONS

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive an advance commission as follows:

A (for purchases over $1 million):

<table>
<thead>
<tr>
<th>Purchase Amount</th>
<th>Advance Commission as a Percentage of Public Offering Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>First $1 million - $5 million</td>
<td>0.75%</td>
</tr>
<tr>
<td>Next $5 million - $20 million</td>
<td>0.50%</td>
</tr>
<tr>
<td>Over $20 million</td>
<td>0.25%</td>
</tr>
</tbody>
</table>

Advance commissions are calculated on a year-by-year basis based on amounts invested during that year. Accordingly, with respect to additional purchase amounts, the advance commission breakpoint resets annually to the first breakpoint on the anniversary of the first purchase.

The A class purchases under this program may be made by Letter of Intent or by combining concurrent purchases. The above advance commission will be paid only on those purchases that were not previously subject to a front-end sales charge or dealer advance commission. Certain retirement accounts may not be eligible for this program.

B:

<table>
<thead>
<tr>
<th>All Purchase Amounts</th>
<th>Advance Commission as a Percentage of Public Offering Price</th>

RULE 12B-1 FEES

A, B, C & R Classes

The Board has adopted a Rule 12b-1 Plan, which allows payment of marketing fees of up to 0.05% for A class, 0.75% for B class, 0.75% for C class and up to 0.50% for R class of average net assets to the Distributor for the sale, distribution, administration and customer servicing of the Fund’s A class, B class, C class and R class. When the Distributor receives Rule 12b-1 fees, it may pay some or all of them to financial intermediaries whose customers purchase Shares. The Fund’s A class has no present intention of paying, accruing or incurring any Rule 12b-1 Fees until such time as approved by the Fund’s Board of Trustees. In addition, in connection with the sale of the B class and C class, Federated and its subsidiaries
make advance commission payments to financial intermediaries and in return may receive Rule 12b-1 fees and contingent
defered sales loads from the B class and C class. Federated and its subsidiaries may benefit or sustain losses from such
arrangements. Because these Shares pay marketing fees on an ongoing basis, your investment cost may be higher over time
than other shares with different sales charges and marketing fees.

SERVICE FEES

A, B & C Classes
A, B and C classes may pay Service Fees of up to 0.25% of average net assets to financial intermediaries or to Federated
Shareholder Services Company (FSSC), a subsidiary of Federated, for providing services to shareholders and maintaining
shareholder accounts. Intermediaries that receive Service Fees may include a company affiliated with management of
Federated. If a financial intermediary receives Service Fees on an account, it is not eligible to also receive Account
Administration Fees on that same account.

ACCOUNT ADMINISTRATION FEES

A, B & C Classes
The Fund may pay Account Administration Fees of up to 0.25% of average net assets to banks that are not registered as
broker-dealers or investment advisers for providing administrative services to the Fund and its shareholders. If a financial
intermediary receives Account Administration Fees on an account, it is not eligible to also receive Service Fees or
Recordkeeping Fees on that same account.

RECORDKEEPING FEES

A, B, C, R & IS Classes
The Fund may pay Recordkeeping Fees on an average-net-assets basis or on a per-account-per-year basis to financial
intermediaries for providing recordkeeping services to the Fund and its shareholders. If a financial intermediary receives
Recordkeeping Fees on an account, it is not eligible to also receive Account Administration Fees or Networking Fees on
that same account.

NETWORKING FEES

A, B, C, R & IS Classes
The Fund may reimburse Networking Fees on a per-account-per-year basis to financial intermediaries for providing
administrative services to the Fund and its shareholders on certain non-omnibus accounts. If a financial intermediary
receives Networking Fees on an account, it is not eligible to also receive Recordkeeping Fees on that same account.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Distributor may pay out of its own resources amounts to certain financial intermediaries, including broker-dealers,
banks, registered investment advisers, independent financial planners and retirement plan administrators, that support the sale
of Shares or provide services to Fund shareholders. The amounts of these payments could be significant, and may create an
incentive for the financial intermediary or its employees or associated persons to recommend or sell Shares of the Fund to
you. Not all financial intermediaries receive such payments, and the amount of compensation may vary by intermediary. In
some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor
(including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the
Fund’s Prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial
intermediary sells or may sell; the value of client assets invested; the level and types of services or support furnished by the
financial intermediary; or the Fund’s and/or other Federated funds’ relationship with the financial intermediary. These
payments may be in addition to payments, as described above, made by the Fund to the financial intermediary. In
connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other
Federated funds, within the financial intermediary’s organization by, for example, placement on a list of preferred or
recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various
ways within the financial intermediary’s organization. You can ask your financial intermediary for information about any
payments it receives from the Distributor or the Fund and any services provided, as well as about fees and/or commissions
it charges.
How to Purchase Shares
You may purchase Shares of the Fund any day the NYSE is open. The Fund reserves the right to reject any request to purchase or exchange Shares. New investors must submit a completed New Account Form. All accounts, with the exception of R6 class accounts, including those for which there is no minimum initial investment amount required, are subject to the Fund’s policy on “Accounts with Low Balances” as discussed later in this Prospectus.

Where the Fund offers more than one Share class and you do not specify the class choice on your New Account Form or form of payment (e.g., Federal Reserve wire or check), you automatically will receive the A class.

A, B & C Classes
You may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund.

R Class
You may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund.

The minimum initial and subsequent investment amounts for IRA Rollovers from retirement plans are generally $250 and $100, respectively. There is no minimum initial or subsequent amount for employer-sponsored retirement plans; however, such accounts remain subject to the Fund’s policy on “Accounts with Low Balances” as discussed later in this Prospectus.

An institutional investor’s minimum investment is calculated by combining all accounts it maintains with the Fund.

IS Class
Eligible investors may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund in the manner described above under “How is the Fund Sold?”

Where applicable, the required minimum initial investment for the IS class is generally $1,000,000. There is no minimum subsequent investment amount.

R6 Class
Eligible Investors may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund in the manner described above under “How is the Fund Sold?”

There is no minimum initial or subsequent investment amount required.

THROUGH A FINANCIAL INTERMEDIARY
- Establish an account with the financial intermediary; and
- Submit your purchase order to the financial intermediary before the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time).

You will receive the next calculated NAV if the financial intermediary forwards the order on the same day, and forwards your payment by the prescribed trade settlement date (typically within one to three business days) to the Fund’s transfer agent, State Street Bank and Trust Company (“Transfer Agent”). You will become the owner of Shares and receive dividends when your payment is received in accordance with these time frames (provided that, if payment is received in the form of a check, the check clears). If your payment is not received in accordance with these time frames, or a check does not clear, your purchase will be canceled and you could be liable for any losses, fees or expenses incurred by the Fund or the Fund’s Transfer Agent.

Financial intermediaries should send payments according to the instructions in the sections “By Wire” or “By Check.” Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

DIRECTLY FROM THE FUND
- Establish your account with the Fund by submitting a completed New Account Form; and
- Send your payment to the Fund by Federal Reserve wire or check.

You will become the owner of Shares and your Shares will be priced at the next calculated NAV after the Fund receives your wire or your check. If your check does not clear, your purchase will be canceled and you could be liable for any losses or fees incurred by the Fund or the Fund’s Transfer Agent.
By Wire

To facilitate processing your order, please call the Fund before sending the wire. Send your wire to:

State Street Bank and Trust Company
Boston, MA
Dollar Amount of Wire
ABA Number 011000028
BNF: 23026552
Attention: Federated EDGEWIRE
Wire Order Number, Dealer Number or Group Number
Nominee/Institution Name
Fund Name and Number and Account Number

You cannot purchase Shares by wire on holidays when wire transfers are restricted.

By Check

Make your check payable to The Federated Funds, note your account number on the check, and send it to:
The Federated Funds
P.O. Box 8600
Boston, MA 02266-8600

If you send your check by a private courier or overnight delivery service that requires a street address, send it to:
The Federated Funds
30 Dan Road
Canton, MA 02021-2809

Payment should be made in U.S. dollars and drawn on a U.S. bank. The Fund reserves the right to reject any purchase request. For example, to protect against check fraud the Fund may reject any purchase request involving a check that is not made payable to The Federated Funds (including, but not limited to, requests to purchase Shares using third-party checks) or involving temporary checks or credit card checks.

By Direct Deposit

You may establish Payroll Deduction/Direct Deposit arrangements for investments into the Fund by either calling a Client Service Representative at 1-800-341-7400; or by completing the Payroll Deduction/Direct Deposit Form, which is available on FederatedInvestors.com under Customer Service/Find a Form. You will receive a confirmation when this service is available.

THROUGH AN EXCHANGE

You may purchase Fund Shares through an exchange from another Federated fund. An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction.

To do this you must:

■ ensure that the account registrations are identical;
■ meet any applicable minimum initial investment requirements; and
■ receive a prospectus for the fund into which you wish to exchange.

The Fund may modify or terminate the exchange privilege at any time.

A, B, C, R & R6 Classes

You may purchase Shares through an exchange from the same share class of another Federated fund.

IS Class

You may purchase Shares through an exchange from any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Federated Liberty U.S. Government Money Market Trust and any R class.

By Online Account Services

You may access your accounts online to purchase shares through Federated’s Shareholder Account Access system once you have registered for access. Online transactions may be subject to certain limitations including limitations as to the amount of the transaction. For more information about the services available through Shareholder Account Access, please visit www.FederatedInvestors.com and select “My Investments,” or call (800) 245-4770 to speak with a Client Service Representative. Institutional shareholders should speak with their Federated relationship manager to discuss online options available.
BY SYSTEMATIC INVESTMENT PROGRAM (SIP)  
Once you have opened an account, you may automatically purchase additional Shares on a regular basis by completing the SIP section of the New Account Form or by contacting the Fund or your financial intermediary. The minimum investment amount for SIPs is $50.

BY AUTOMATED CLEARING HOUSE (ACH)  
Once you have opened an account, you may purchase additional Shares through a depository institution that is an ACH member. This purchase option can be established by completing the appropriate sections of the New Account Form.

RETIREMENT INVESTMENTS  
A, B & C Classes  
You may purchase Shares as retirement investments (such as qualified plans and IRAs or transfer or rollover of assets). Call your financial intermediary or the Fund for information on retirement investments. We suggest that you discuss retirement investments with your tax adviser. You may be subject to an annual IRA account fee.

R6 Class  
You may purchase Shares as retirement investments (such as qualified plans or transfer of assets). Call your financial intermediary or the Fund for information on retirement investments. We suggest that you discuss retirement investments with your tax adviser. You may be subject to an account fee.

How to Redeem and Exchange Shares  
You should redeem or exchange Shares:
- through a financial intermediary if you purchased Shares through a financial intermediary; or
- directly from the Fund if you purchased Shares directly from the Fund.
Shares of the Fund may be redeemed for cash, or exchanged for shares of other Federated funds as described herein, on days on which the Fund computes its NAV. Redemption requests may be made by telephone or in writing.

THROUGH A FINANCIAL INTERMEDIARY  
Submit your redemption or exchange request to your financial intermediary by the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time). The redemption amount you will receive is based upon the next calculated NAV after the Fund receives the order from your financial intermediary.

DIRECTLY FROM THE FUND  
By Telephone  
You may redeem or exchange Shares by simply calling the Fund at 1-800-341-7400.  
If you call before the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time), you will receive a redemption amount based on that day’s NAV.

By Mail  
You may redeem or exchange Shares by sending a written request to the Fund.  
You will receive a redemption amount based on the next calculated NAV after the Fund receives your written request in proper form.  
Send requests by mail to:  
The Federated Funds  
P.O. Box 8600  
Boston, MA 02266-8600  
Send requests by **private courier or overnight delivery service** to:  
The Federated Funds  
30 Dan Road  
Canton, MA 02021-2809  
All requests must include:  
- Fund name and Share class, account number and account registration;  
- amount to be redeemed or exchanged;
signatures of all shareholders exactly as registered; and

if exchanging, the Fund name and Share class, account number and account registration into which you are exchanging.

Call your financial intermediary or the Fund if you need special instructions.

**Signature Guarantees**

Signatures must be guaranteed by a financial institution which is a participant in a Medallion signature guarantee program if:

- your redemption will be sent to an address other than the address of record;
- your redemption will be sent to an address of record that was changed within the last 30 days;
- a redemption is payable to someone other than the shareholder(s) of record; or
- transferring into another fund with a different shareholder registration.

A Medallion signature guarantee is designed to protect your account from fraud. Obtain a Medallion signature guarantee from a bank or trust company, savings association, credit union or broker, dealer or securities exchange member. **A notary public cannot provide a signature guarantee.**

**By Online Account Services**

You may access your accounts online to redeem or exchange shares through Federated’s Shareholder Account Access system once you have registered for access. Online transactions may be subject to certain limitations including limitations as to the amount of the transaction. For more information about the services available through Shareholder Account Access, please visit www.Federated Investors.com and select “My Investments,” or call (800) 245-4770 to speak with a Client Service Representative. Institutional shareholders should speak with their Federated relationship manager to discuss online options available.

**PAYMENT METHODS FOR REDEMPTIONS**

Your redemption proceeds will be mailed by check to your address of record. The following payment options are available if you complete the appropriate section of the New Account Form or an Account Service Options Form. These payment options require a signature guarantee if they were not established when the account was opened:

- An electronic transfer to your account at a financial institution that is an ACH member; or
- Wire payment to your account at a domestic commercial bank that is a Federal Reserve System member.

**Redemption In-Kind**

Although the Fund intends to pay Share redemptions in cash, it reserves the right to pay the redemption price in whole or in part by a distribution of the Fund’s portfolio securities.

**LIMITATIONS ON REDEMPTION PROCEEDS**

Redemption proceeds normally are wired or mailed within one business day after receiving a request in proper form. Payment may be delayed for up to seven days:

- to allow your purchase to clear (as discussed below);
- during periods of market volatility;
- when a shareholder’s trade activity or amount adversely impacts the Fund’s ability to manage its assets; or
- during any period when the Federal Reserve wire or applicable Federal Reserve banks are closed, other than customary weekend and holiday closings.

If you request a redemption of Shares recently purchased by check (including a cashier’s check or certified check), money order, bank draft or ACH, your redemption proceeds may not be made available for up to seven calendar days to allow the Fund to collect payment on the instrument used to purchase such Shares. If the purchase instrument does not clear, your purchase order will be canceled and you will be responsible for any losses incurred by the Fund as a result of your canceled order.

In addition, the right of redemption may be suspended, or the payment of proceeds may be delayed, during any period:

- when the NYSE is closed, other than customary weekend and holiday closings;
- when trading on the NYSE is restricted, as determined by the SEC; or
- in which an emergency exists, as determined by the SEC, so that disposal of the Fund’s investments or determination of its NAV is not reasonably practicable.

You will not accrue interest or dividends on uncashed redemption checks from the Fund if those checks are undeliverable and returned to the Fund.
REDEMPTIONS FROM RETIREMENT ACCOUNTS

A, B, C & R6 Classes
In the absence of your specific instructions, 10% of the value of your redemption from a retirement account in the Fund may be withheld for taxes. This withholding only applies to certain types of retirement accounts.

EXCHANGE PRIVILEGE
You may exchange Shares of the Fund. An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. To do this, you must:
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

The Fund may modify or terminate the exchange privilege at any time.

In addition, the Fund may terminate your exchange privilege if your exchange activity is found to be excessive under the Fund’s frequent trading policies. See “Account and Share Information – Frequent Trading Policies.”

A, B, C & R Classes
You may exchange Shares into shares of the same class of another Federated fund.

IS Class
You may exchange Shares for shares of any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Federated Liberty U.S. Government Money Market Trust and any R class.

R6 Class
You may exchange Shares for shares of any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Federated Liberty U.S. Government Money Market Trust.

SYSTEMATIC WITHDRAWAL/EXCHANGE PROGRAM
You may automatically redeem or exchange Shares. The minimum amount for all new or revised systematic redemptions or exchanges of Shares is $50 per transaction per fund. Complete the appropriate section of the New Account Form or an Account Service Options Form or contact your financial intermediary or the Fund. Your account value must meet the minimum initial investment amount at the time the program is established. This program may reduce, and eventually deplete, your account. Payments should not be considered yield or income.

Generally, it is not advisable to continue to purchase Shares subject to a sales charge while redeeming Shares using this program.

Systematic Withdrawal Program (SWP) on B Class
You will not be charged a CDSC on SWP redemptions if:
- you redeem 12% or less of your account value in a single year;
- you reinvest all dividends and capital gains distributions;
- your account has at least a $10,000 balance when you establish the SWP. (You cannot aggregate multiple B class accounts to meet this minimum balance.); and
- for all B class accounts established on or after August 2, 2010, the minimum SWP redemption amount is $50 per transaction, per fund, including transactions that qualify for a CDSC waiver as outlined in this Prospectus.

You will be subject to a CDSC on redemption amounts that exceed the 12% annual limit. In measuring the redemption percentage, your account is valued when you establish the SWP and then annually at calendar year-end. You can redeem monthly, quarterly or semi-annually.

ADDITIONAL CONDITIONS

Telephone Transactions
The Fund will record your telephone instructions. If the Fund does not follow reasonable procedures, it may be liable for losses due to unauthorized or fraudulent telephone instructions.

Share Certificates
The Fund does not issue share certificates.
CONFIRMATIONS AND ACCOUNT STATEMENTS

You will receive confirmation of purchases, redemptions and exchanges (except for systematic transactions). In addition, you will receive periodic statements reporting all account activity, including systematic transactions, dividends and capital gains paid.

DIVIDENDS AND CAPITAL GAINS

The Fund declares and pays any dividends annually to shareholders. Dividends are paid to all shareholders invested in the Fund on the record date. The record date is the date on which a shareholder must officially own Shares in order to earn a dividend.

In addition, the Fund pays any capital gains at least annually and may make such special distributions of dividends and capital gains as may be necessary to meet applicable regulatory requirements. Your dividends and capital gains distributions will be automatically reinvested in additional Shares without a sales charge, unless you elect cash payments. Dividends may also be reinvested without sales charges in shares of any class of any other Federated fund of which you are already a shareholder.

If you purchase Shares just before the record date for a dividend or capital gain distribution, you will pay the full price for the Shares and then receive a portion of the price back in the form of a taxable distribution, whether or not you reinvest the distribution in Shares. Therefore, you should consider the tax implications of purchasing Shares shortly before the record date for a dividend or capital gain. Contact your financial intermediary or the Fund for information concerning when dividends and capital gains will be paid.

Under the federal securities laws, the Fund is required to provide a notice to shareholders regarding the source of distributions made by the Fund if such distributions are from sources other than ordinary investment income. In addition, important information regarding the Fund’s distributions, if applicable, is available via the link to the Fund and share class name at www.FederatedInvestors.com/FundInformation.

SMALL DISTRIBUTIONS AND UNCAshed CHECKS

Generally, dividend and/or capital gain distributions payable by check in an amount of less than $25 will be automatically reinvested in additional shares. This policy does not apply if you have elected to receive cash distributions that are directly deposited into your bank account via wire or ACH.

Additionally, if one or more dividend or capital gain distribution checks are returned as “undeliverable,” or remain uncashed for 180 days, all subsequent dividend and capital gain distributions will be reinvested in additional shares. No interest will accrue on amounts represented by uncashed distribution checks. For questions on whether reinvestment applies to your distributions, please contact a Client Service Representative at 1-800-341-7400.

ACCOUNTS WITH LOW BALANCES

Federated reserves the right to close accounts if redemptions or exchanges cause the account balance to fall below:

- $1,500 for the A, B and C classes (or in the case of IRAs, $250);
- $1,500 for the R6 class;
- $250 for the R class; and
- $25,000 for the IS class.

Before an account is closed, you will be notified and allowed at least 30 days to purchase additional Shares to meet the minimum.

TAX INFORMATION

The Fund sends an IRS Form 1099 and an annual statement of your account activity to assist you in completing your federal, state and local tax returns. Fund distributions of dividends and capital gains are taxable to you whether paid in cash or reinvested in the Fund. Dividends are taxable at different rates depending on the source of dividend income. Distributions of net short-term capital gains are taxable to you as ordinary income. Distributions of net long-term capital gains are taxable to you as long-term capital gains regardless of how long you have owned your Shares.

Fund distributions are expected to be both dividends and capital gains. Redemptions and exchanges are taxable sales. Please consult your tax adviser regarding your federal, state and local tax liability.
FREQUENT TRADING POLICIES

Frequent or short-term trading into and out of the Fund can have adverse consequences for the Fund and shareholders who use the Fund as a long-term investment vehicle. Such trading in significant amounts can disrupt the Fund’s investment strategies (e.g., by requiring it to sell investments at inopportune times or maintain excessive short-term or cash positions to support redemptions), increase brokerage and administrative costs and affect the timing and amount of taxable gains distributed by the Fund. Investors engaged in such trading may also seek to profit by anticipating changes in the Fund’s NAV in advance of the time as of which NAV is calculated.

The Fund’s Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund’s Shares. The Fund’s fair valuation procedures are intended in part to discourage short-term trading strategies by reducing the potential for these strategies to succeed. See “What Do Shares Cost?” The Fund also monitors trading in Fund Shares in an effort to identify disruptive trading activity. The Fund monitors trades into and out of the Fund within a period of 30 days or less. The Fund may also monitor trades into and out of the Fund for potentially disruptive trading activity over periods longer than 30 days. The size of Share transactions subject to monitoring varies. Where it is determined that a shareholder has exceeded the detection amounts twice within a period of 12 months, the Fund will temporarily prohibit the shareholder from making further purchases or exchanges of Fund Shares. If the shareholder continues to exceed the detection amounts for specified periods, the Fund will impose lengthier trading restrictions on the shareholder, up to and including permanently prohibiting the shareholder from making any further purchases or exchanges of Fund Shares. Whether or not the specific monitoring limits are exceeded, the Fund’s management or the Adviser may determine from the amount, frequency or pattern of purchases and redemptions or exchanges that a shareholder is engaged in excessive trading that is or could be detrimental to the Fund and other shareholders and may prohibit the shareholder from making further purchases or exchanges of Fund Shares. No matter how the Fund defines its limits on frequent trading of Fund Shares, other purchases and sales of Fund Shares may have adverse effects on the management of the Fund’s portfolio and its performance.

The Fund’s frequent trading restrictions do not apply to purchases and sales of Fund Shares by other Federated funds. These funds impose the same frequent trading restrictions as the Fund at their shareholder level. In addition, allocation changes of the investing Federated fund are monitored, and the managers of the recipient fund must determine that there is no disruption to their management activity. The intent of this exception is to allow investing fund managers to accommodate cash flows and other activity that result from non-abusive trading in the investing fund, without being stopped from such trading because the aggregate of such trades exceeds the monitoring limits. Nonetheless, as with any trading in Fund Shares, purchases and redemptions of Fund Shares by other Federated funds could adversely affect the management of the Fund’s portfolio and its performance.

The Fund will not restrict transactions made on a non-discretionary basis by certain asset allocation programs, wrap programs, fund of funds, collective funds or other similar accounts that have been pre-approved by Federated (“Approved Accounts”). The Fund will continue to monitor transactions by the Approved Accounts and will seek to limit or restrict even non-discretionary transactions by Approved Accounts that are determined to be disruptive or harmful to the Fund.

The Fund’s objective is that its restrictions on short-term trading should apply to all shareholders that are subject to the restrictions, regardless of the number or type of accounts in which Shares are held. However, the Fund anticipates that limitations on its ability to identify trading activity to specific shareholders, including where Shares are held through intermediaries in multiple or omnibus accounts, will mean that these restrictions may not be able to be applied uniformly in all cases.

Other funds in the Federated family of funds may impose different monitoring policies or in some cases, may not monitor for frequent or short-term trading. Under normal market conditions such monitoring policies are designed to protect the funds being monitored and their shareholders and the operation of such policies and shareholder investments under such monitoring are not expected to have materially adverse impact on the Federated funds or their shareholders. If you plan to exchange your fund shares for shares of another Federated fund, please read the prospectus of that other Federated fund for more information.

PORTFOLIO HOLDINGS INFORMATION

Information concerning the Fund’s portfolio holdings is available via the link to the Fund and share class name at www.FederatedInvestors.com/FundInformation. A complete listing of the Fund’s portfolio holdings as of the end of each calendar quarter is posted on the website 30 days (or the next business day) after the end of the quarter and remains posted for six months thereafter. Summary portfolio composition information as of the close of each month is posted on the website 15 days (or the next business day) after month-end and remains posted until replaced by the information for the succeeding month. The summary portfolio composition information may include identification of the Fund’s top 10 holdings and percentage breakdowns of the portfolio by sector and geographical region.
You may also access portfolio information as of the end of the Fund’s fiscal quarters via the link to the Fund and share class name at www.FederatedInvestors.com/FundInformation. The Fund’s Annual and Semi-Annual Shareholder Reports contain complete listings of the Fund’s portfolio holdings as of the end of the Fund’s second and fourth fiscal quarters. The Fund’s Form N-Q filings contain complete listings of the Fund’s portfolio holdings as of the end of the Fund’s first and third fiscal quarters. Fiscal quarter information is made available on the website within 70 days after the end of the fiscal quarter. This information is also available in reports filed with the SEC at the SEC’s website at www.sec.gov.

In addition, from time to time (for example, during periods of unusual market conditions), additional information regarding the Fund’s portfolio holdings and/or composition may be posted to Federated’s website. If and when such information is posted, its availability will be noted on, and the information will be accessible from, the home page of the website.

**Who Manages the Fund?**

The Board governs the Fund. The Board selects and oversees the Adviser, Federated Global Investment Management Corp.. The Adviser manages the Fund’s assets, including buying and selling portfolio securities. Federated Advisory Services Company (FASC), an affiliate of the Adviser, provides research, quantitative analysis, equity trading and transaction settlement and certain support services to the Adviser. The fee for these services is paid by the Adviser and not by the Fund.

The address of the Adviser is 101 Park Avenue, 41st Floor, New York, NY 10178. The address of FASC is Federated Investors Tower, 1001 Liberty Avenue, Pittsburgh, PA 15222-3779.

The Adviser and other subsidiaries of Federated advise approximately 131 equity, fixed-income and money market mutual funds as well as a variety of other pooled investment vehicles, private investment companies and customized separately managed accounts (including non-U.S./offshore funds) which totaled approximately $362.9 billion in assets as of December 31, 2014. Federated was established in 1955 and is one of the largest investment managers in the United States with approximately 1,400 employees. Federated provides investment products to approximately 7,700 investment professionals and institutions.

The Adviser advises approximately 19 equity mutual funds (including sub-advised funds) as well as a variety of separately managed accounts, institutional separate accounts and private investment companies and other pooled investment vehicles (including non-U.S./offshore funds), which totaled approximately $11.5 billion in assets as of December 31, 2014.

**PORTFOLIO MANAGEMENT INFORMATION**

**Audrey H. Kaplan**

Ms. Kaplan managed the predecessor fund to the Fund, the Rochdale Atlas Portfolio, since February 2004, and has continued to manage the Fund as an employee of the Adviser since the Fund’s reorganization with the predecessor fund in August 2007. Ms. Kaplan is a Senior Vice President of the Fund’s Adviser and Head of the International Equity Team. She is Vice President of the Trust with respect to the Fund. Prior to joining Federated, Ms. Kaplan was employed with Rochdale Investment Management LLC where she served as a Portfolio Manager for several portfolios including the Rochdale Investment Trust Atlas Portfolio and Senior Vice President of Research from February 2004 to August 2007. Prior to joining Rochdale, Ms. Kaplan was a Hedge Fund Consultant at BlueCrest Capital Management from December 2002 to December 2003, Vice President and European Quantitative Strategist with Merrill Lynch International from August 2000 to December 2002, and Project Manager of Global Emerging Markets Research with Robert Fleming & Co., Ltd. from February 1998 to December 1999. Ms. Kaplan has 26 years of experience in portfolio strategy, investment research and quantitative analysis. Ms. Kaplan earned her B.S. in Computer and Systems Engineering from Rensselaer Polytechnic Institute and her Masters in Finance from London Business School.

**Geoffrey C. Pazzanese**

Mr. Pazzanese managed the predecessor fund to the Fund, the Rochdale Atlas Portfolio, since January 2007, and has continued to manage the Fund as an employee of the Adviser since the Fund’s reorganization with the predecessor fund in August 2007. Mr. Pazzanese is a Vice President of the Fund’s Adviser. Prior to joining Federated, Mr. Pazzanese was employed with Rochdale Investment Management LLC where he served as a Quantitative Analyst and Senior Quantitative Analyst for several portfolios including the Rochdale Investment Trust Atlas Portfolio from February 2001 to August 2007. He was promoted to Portfolio Manager of the Rochdale Investment Trust Atlas Portfolio in January 2007. Prior to joining Rochdale, Mr. Pazzanese worked as a Quantitative Research Associate with Merrill Lynch in New York from April 2000 to January 2001, and Area Sales Manager for AXIS SpA from April 1992 to July 1998. Mr. Pazzanese has 15 years of international investment management and research, plus seven years of global industrial experience. Mr. Pazzanese received his B.S. in both Physics and Italian from the University of Wisconsin-Madison and his Master’s degree in International Management from Thunderbird School of Global Management.
The Fund’s SAI provides additional information about the Portfolio Managers’ compensation, management of other accounts and ownership of securities in the Fund.

ADVISORY FEES

The Fund’s investment advisory contract provides for payment to the Adviser of an annual investment advisory fee of 0.90% of the Fund’s average daily net assets. The Adviser may voluntarily waive a portion of its fee or reimburse the Fund for certain operating expenses. The Adviser and its affiliates have also agreed to certain “Fee Limits” as described in the footnote to the “Risk/Return Summary: Fees and Expenses” table found in the “Fund Summary” section of the Prospectus.

A discussion of the Board’s review of the Fund’s investment advisory contract is available in the Fund’s shareholder reports as they become available.

Financial Information

FINANCIAL HIGHLIGHTS

The Financial Highlights will help you understand the Fund’s financial performance for its past five fiscal years, or since inception. Some of the information is presented on a per Share basis. Total returns represent the rate an investor would have earned (or lost) on an investment in the Fund, assuming reinvestment of any dividends and capital gains.

This information has been audited by KPMG LLP, an independent registered public accounting firm, whose report, along with the Fund’s audited financial statements, is included in the Annual Report.

1 Per share numbers have been calculated using the average shares method.
2 Represents less than $0.01.
3 During the year ended November 30, 2010, the Fund received a regulatory settlement from an unaffiliated third party, which had an impact of 0.05% on the total return.
4 Based on net asset value, which does not reflect the sales charge, redemption fee or contingent deferred sales charge, if applicable.
5 The net expense ratio is calculated without reduction for expense offset arrangements. The net expense ratios are 1.48% and 1.48% for the years ended November 30, 2011 and 2010, respectively, after taking into account these expense reductions.
6 This expense decrease is reflected in both the net expense and net investment income ratios shown above.

Further information about the Fund’s performance is contained in the Fund’s Annual Report, dated November 30, 2014, which can be obtained free of charge.

1 Reflects operations for the period from August 5, 2013 (date of initial investment) to November 30, 2013.
2 Per share numbers have been calculated using the average shares method.
3 Based on net asset value. Total returns for periods of less than one year are not annualized.
4 Computed on an annualized basis.
5 This expense decrease is reflected in both the net expense and net investment income ratios shown above.
6 Represents less than $1,000.
7 Portfolio turnover is calculated at the Fund level. Percentage indicated was calculated for the fiscal year ended November 30, 2013.

Further information about the Fund’s performance is contained in the Fund’s Annual Report, dated November 30, 2014, which can be obtained free of charge.
Appendix A: Hypothetical Investment and Expense Information

The following charts provide additional hypothetical information about the effect of the Fund’s expenses, including investment advisory fees and other Fund costs, on the Fund’s assumed returns over a 10-year period. Each chart shows the estimated expenses that would be incurred in respect of a hypothetical investment of $10,000, assuming a 5% return each year, and no redemption of Shares. Each chart also assumes that the Fund’s annual expense ratio stays the same throughout the 10-year period (except the B class, which converts to the A class after you have held them for eight years) and that all dividends and distributions are reinvested. The annual expense ratios used in each chart are the same as stated in the “Fees and Expenses” table of this Prospectus (and thus may not reflect any fee waiver or expense reimbursement currently in effect). The maximum amount of any sales charge that might be imposed on the purchase of Shares (and deducted from the hypothetical initial investment of $10,000; the “Front-End Sales Charge”) is reflected in the “Hypothetical Expenses” column. The hypothetical investment information does not reflect the effect of charges (if any) normally applicable to redemptions of Shares (e.g., deferred sales charges, redemption fees). Mutual fund returns, as well as fees and expenses, may fluctuate over time, and your actual investment returns and total expenses may be higher or lower than those shown below.

An SAI dated January 31, 2015, is incorporated by reference into this Prospectus. Additional information about the Fund and its investments is contained in the Fund’s SAI and Annual and Semi-Annual Reports to shareholders as they become available. The Annual Report’s Management’s Discussion of Fund Performance discusses market conditions and investment strategies that significantly affected the Fund’s performance during its last fiscal year. The SAI contains a description of the Fund’s policies and procedures with respect to the disclosure of its portfolio securities. To obtain the SAI, Annual Report, Semi-Annual Report and other information without charge, and to make inquiries, call your financial intermediary or the Fund at 1-800-341-7400.

These documents, as well as additional information about the Fund (including portfolio holdings, performance and distributions), are also available on Federated’s website at FederatedInvestors.com.

You can obtain information about the Fund (including the SAI) by writing to or visiting the SEC’s Public Reference Room in Washington, DC. You may also access Fund information from the EDGAR Database on the SEC’s website at www.sec.gov. You can purchase copies of this information by contacting the SEC by email at publicinfo@sec.gov or by writing to the SEC’s Public Reference Section, Washington, DC 20549. Call 1-202-551-8090 for information on the Public Reference Room’s operations and copying fees.
