

Money Market Investment Profile

(as of 12/31/09)

Over \$3 trillion is currently invested in money market funds, according to the Investment Company Institute. When you consider the expanding cash needs of corporations, businesses, government entities, high-net-worth individuals and the largest generation of retirees in history, expect the demand for money funds to grow.

For more than three decades, Federated has been an industry leader when it comes to money fund management. Federated's strong presence within the industry enables us to provide one of the largest product menus among money market managers and targeted solutions that are among the most innovative in the industry.

Plus, Federated has relationships with hundreds of securities dealers, ranging from the largest names on Wall Street to regional firms across the country. Our broad network of counterparties also enables us to access a range of primary and secondary market deals around the country.

Federated Investors is one of the largest institutional investment managers in the United States with \$389.3 billion in assets, \$313.3 billion of which is in money market products.

Our Investment Philosophy

- Highly defined and disciplined process of portfolio construction
- Intensive credit review
- Barbell structure consisting primarily of securities with maturities above and below the average portfolio maturity
