RISK/RETURN SUMMARY

WHAT IS THE FUND'S INVESTMENT OBJECTIVE?

The Fund is a money market fund that seeks to maintain a stable net asset value (NAV) of \$1.00 per Share. The Fund's investment objective is current income consistent with the stability of principal and liquidity. While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this prospectus.

WHAT ARE THE FUND'S MAIN INVESTMENT STRATEGIES?

The Fund invests primarily in a portfolio of short-term U.S. Treasury and government agency securities. These investments include repurchase agreements collateralized fully by U.S. Treasury and government agency securities. The Fund will have a dollar-weighted average portfolio maturity of 90 days or less.

The Fund intends to invest in the securities of U.S. government-sponsored entities (GSEs), including GSE securities that are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in GSE securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association. Finally, the Fund may invest in a few GSE securities that have no explicit financial support, but which are regarded as having implied support because the federal government sponsors their activities. Such securities include those issued by the Farm Credit System and the Financing Corporation.

WHAT ARE THE MAIN RISKS OF INVESTING IN THE FUND?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund.

The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

The percentages shown are based on expenses for the entire fiscal year ended May 31, 2009. However, the rate at which expenses are accrued during the fiscal year may not be constant and, at any particular point, may be greater or less than the stated average percentage. Although not contractually obligated to do so, the Adviser, distributor, administrator, shareholder services provider and certain unaffiliated third-party financial intermediaries waived and/or reimbursed certain amounts. In addition, the distributor did not charge certain amounts. These are shown below along with the net expenses the Fund *actually paid* for the fiscal year ended May 31, 2009.

³ The distributor voluntarily waived a portion of the distribution (12b-1) fee. The distributor can terminate this voluntary waiver at any time. In addition, the distributor did not charge, and therefore the Fund did not accrue, a portion of its fee. This reduction can be terminated at any time. The distribution (12b-1) fee paid by the Fund (after the voluntary waiver and reduction) was 0.09% for the fiscal year ended May 31, 2009.

Also includes a recordkeeping fee which is used to compensate intermediaries for recordkeeping services. Please see "Payments to Financial Intermediaries" herein. The administrator and shareholder services provider voluntarily waived and/or reimbursed a portion of its fee. The administrator and shareholder services provider can terminate this voluntary waiver/reimbursement at any time. Additionally, certain unaffiliated third-party financial intermediaries voluntarily waived a portion of their shareholder services fee. This voluntary waiver can be terminated at any time. Total other expenses paid by the Fund (after the voluntary waivers and reimbursement) were 0.44% for fiscal year ended May 31, 2009.

EXAMPLE

This Example is intended to help you compare the cost of investing in the Fund's Shares with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund's Shares for the time periods indicated and then redeem all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's Shares operating expenses are **before waivers, reimbursement and reduction** as shown in the table and remain the same. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

1 Year	\$ 138
3 Years	\$ 431
5 Years	\$ 745
10 Years	\$1,635

WHAT ARE THE FUND'S INVESTMENT STRATEGIES?

The Fund invests primarily in a portfolio of U.S. Treasury and government agency securities maturing in 397 days or less. These investments include repurchase agreements collateralized fully by U.S. Treasury and government agency securities. The Fund will have a dollar-weighted average portfolio maturity of 90 days or less.

The Fund's investment adviser (Adviser) targets a dollar-weighted average portfolio maturity range based upon its interest rate outlook. The Adviser formulates its interest rate outlook by analyzing a variety of factors, such as:

- current U.S. economic activity and the economic outlook;
- current short-term interest rates;
- the Federal Reserve Board's policies regarding short-term interest rates; and
- the potential effects of foreign economic activity on U.S. short-term interest rates.

The Adviser generally shortens the portfolio's dollar-weighted average maturity when it expects interest rates to rise and extends the maturity when it expects interest rates to fall. This strategy seeks to enhance the returns from favorable interest rate changes and reduce the effect of unfavorable changes. The Adviser selects securities used to shorten or extend the portfolio's dollar-weighted average maturity by comparing the returns currently offered by different investments to their historical and expected returns.

Because the Fund refers to government securities in its name, the SEC requires the Fund to notify shareholders at least 60 days in advance of any change in its investment policies that would enable the Fund to normally invest less than 80% of its assets in government securities.

WHAT ARE THE PRINCIPAL SECURITIES IN WHICH THE FUND INVESTS?

FIXED-INCOME SECURITIES

Fixed-income securities pay interest, dividends or distributions at a specified rate. The rate may be a fixed percentage of the principal or adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time.

A security's yield measures the annual income earned on a security as a percentage of its price. A security's yield will increase or decrease depending upon whether it costs less (a discount) or more (a premium) than the principal amount. If the issuer may redeem the security before its scheduled maturity, the price and yield on a discount or premium security may change based upon the probability of an early redemption. Securities with higher risks generally have higher yields.

The following describes the types of fixed-income securities in which the Fund may invest:

U.S. TREASURY SECURITIES

U.S. Treasury securities are direct obligations of the federal government of the United States. U.S. Treasury securities are generally regarded as having the lowest credit risks.

AGENCY SECURITIES

Agency securities are issued or guaranteed by a federal agency or other government sponsored entity (GSE) acting under federal authority. Some GSE securities are supported by the full faith and credit of the United States. These include the Government National Mortgage Association, Small Business Administration, Farm Credit System Financial Assistance Corporation, Farmer's Home Administration, Federal Financing Bank, General Services Administration, Department of Housing and Urban Development, Export-Import Bank, Overseas Private Investment Corporation and Washington Metropolitan Area Transit Authority Bonds.

Other GSE securities receive support through federal subsidies, loans or other benefits. For example, the U.S. Treasury is authorized to purchase specified amounts of securities issued by (or otherwise make funds available to) the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and Tennessee Valley Authority in support of such obligations.

A few GSE securities have no explicit financial support, but are regarded as having implied support because the federal government sponsors their activities. These include the Farm Credit System, Financing Corporation, and Resolution Funding Corporation.

Investors regard agency securities as having low credit risks but not as low as U.S. Treasury securities.

CALLABLE SECURITIES

Certain U.S. Treasury or agency securities in which the Fund invests are callable at the option of the issuer. Callable securities are subject to call risks.

REPURCHASE AGREEMENTS

Repurchase agreements are transactions in which the Fund buys a security from a dealer or bank and agrees to sell the security back at a mutually agreed-upon time and price. The repurchase price exceeds the sale price, reflecting the Fund's return on the transaction. This return is unrelated to the interest rate on the underlying security. The Fund will enter into repurchase agreements only with banks and other recognized financial institutions, such as securities dealers, deemed creditworthy by the Adviser.

The Fund's custodian or subcustodian will take possession of the securities subject to repurchase agreements. The Adviser or subcustodian will monitor the value of the underlying security each day to ensure that the value of the security always equals or exceeds the repurchase price.

Repurchase agreements are subject to credit risks.

WHAT ARE THE SPECIFIC RISKS OF INVESTING IN THE FUND?

INTEREST RATE RISKS

Prices of fixed-income securities rise and fall in response to changes in the interest rate paid by similar securities. Generally, when interest rates rise, prices of fixed-income securities fall. However, market factors, such as the demand for particular fixed-income securities, may cause the prices of certain fixed-income securities to fall while the prices of other securities rise or remain unchanged.

Interest rate changes have a greater effect on the prices of fixed-income securities with longer maturities. Money market funds try to minimize this risk by purchasing short-term securities.

ISSUER CREDIT RISKS

Credit risk is the possibility that an issuer will default on a security by failing to pay interest or principal when due. If an issuer defaults, the Fund will lose money. Money market funds try to minimize this risk by purchasing higher quality securities.

COUNTERPARTY CREDIT RISK

Credit risk includes the possibility that a party to a transaction involving a Fund will fail to meet its obligations. This could cause a Fund to lose the benefit of the transaction or prevent a Fund from selling or buying other securities to implement its investment strategy.

CALL RISKS

Call risk is the possibility that an issuer may redeem a fixed-income security before maturity (a call) at a price below or above its current market price. An increase in the likelihood of a call may reduce the security's price. If a fixed-income security is called, the Fund may have to reinvest the proceeds in other fixed-income securities with lower interest rates, higher credit risks or other less favorable characteristics.

RISKS ASSOCIATED WITH INVESTING SHARE PURCHASE PROCEEDS

On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will cause the Fund's yield to increase. The larger the amount that must be invested or the greater the difference between the yield of the securities purchased and the yield of the existing investments, the greater the impact will be on the yield of the Fund. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.

WHAT DO SHARES COST?

CALCULATION OF NET ASSET VALUE

You can purchase, redeem or exchange Shares any day the New York Stock Exchange (NYSE) is open. The Fund attempts to stabilize the NAV of its Shares at \$1.00 by valuing the portfolio securities using the amortized cost method. The Fund cannot guarantee that its NAV will always remain at \$1.00 per Share. The Fund does not charge a front-end sales charge.

When the Fund receives your transaction request in proper form (as described in this Prospectus), it is processed at the next determined NAV. NAV is determined at 3:00 p.m. (Eastern time) and as of the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time) each day the NYSE is open. The times as of when NAV is determined, and when orders must be placed, may be changed as permitted by the SEC.

HOW IS THE FUND SOLD?

The Fund's Distributor, Federated Securities Corp., markets the Shares described in this Prospectus to customers of financial institutions, such as banks, fiduciaries, custodians of public funds, investment advisers and broker-dealers, or to individuals, directly or through financial intermediaries. Under the Distributor's Contract with the Fund, the Distributor offers Shares on a continuous, best-efforts basis. The Distributor is a subsidiary of Federated Investors, Inc. (Federated).

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Fund and its affiliated service providers may pay fees as described below to financial intermediaries (such as broker-dealers, banks, investment advisers or third-party administrators) whose customers are shareholders of the Fund.

RULE 12B-1 FEES

The Fund has adopted a Rule 12b-1 Plan, which allows it to pay marketing fees of up to 0.35% of average net assets to the Distributor for the sale, distribution, administration and customer servicing of the Fund's Shares. When the Distributor receives Rule 12b-1 Fees, it may pay some or all of them to financial intermediaries whose customers purchase Shares. Because these Shares pay marketing fees on an ongoing basis, your investment cost may be higher over time than other shares with different marketing fees.

SERVICE FEES

The Fund may pay Service Fees of up to 0.25% of average net assets to financial intermediaries or to Federated Shareholder Services Company (FSSC), a subsidiary of Federated, for providing services to shareholders and maintaining shareholder accounts. Intermediaries that receive Service Fees may include a company affiliated with management of Federated. If a financial intermediary receives Service Fees on an account, it is not eligible to also receive Account Administration Fees on that same account.

ACCOUNT ADMINISTRATION FEES

The Fund may pay Account Administration Fees of up to 0.25% of average net assets to banks that are not registered as broker-dealers or investment advisers for providing administrative services to the Funds and shareholders. If a financial intermediary receives Account Administration Fees on an account, it is not eligible to also receive Service Fees or Recordkeeping Fees on that same account.

RECORDKEEPING FEES

The Fund may pay Recordkeeping Fees on an average net assets basis or on a per-account-per-year basis to financial intermediaries for providing recordkeeping services to the Funds and shareholders. If a financial intermediary receives Recordkeeping Fees on an account, it is not eligible to also receive Account Administration Fees or Networking Fees on that same account.

NETWORKING FEES

The Fund may reimburse Networking Fees on a per-account-per-year basis to financial intermediaries for providing administrative services to the Funds and shareholders on certain non-omnibus accounts. If a financial intermediary receives Networking Fees on an account, it is not eligible to also receive Recordkeeping Fees on that same account.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Distributor may pay out of its own resources amounts (including items of material value) to certain financial intermediaries that support the sale of Shares or provide services to Fund shareholders. The amounts of these payments could be significant, and may create an incentive for the financial intermediary or its employees or associated persons to recommend or sell Shares of the Fund to you. In some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor (including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the Fund's prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as the number or value of Shares that the financial intermediary sells or may sell; the value of client assets invested; or the type and nature of services or support furnished by the financial intermediary. These payments may be in addition to payments of Rule 12b-1 Fees and/or Service Fees and/or Account Administration Fees and/or Recordkeeping Fees and/or Networking Fees made by the Fund to the financial intermediary. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated funds within the financial intermediary's organization by, for example, placement on a list of preferred or recommended funds, and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary's organization. You can ask your financial intermediary for information about any payments it receives from the Distributor or the Fund and any services provided.

HOW TO PURCHASE SHARES

You may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund. The Fund reserves the right to reject any request to purchase or exchange Shares. New investors must submit a completed New Account Form.

The required minimum initial investment for Fund Shares is \$10,000. The required minimum subsequent investment amount is \$500.00. The minimum initial and subsequent investment amounts for IRAs are \$250 and \$100, respectively. There is no minimum initial or subsequent amount required for employer-sponsored retirement plans; however, such accounts remain subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus.

An institutional investor's minimum investment is calculated by combining all accounts it maintains with the Fund. Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

- your redemption will be sent to an address other than the address of record;
- your redemption will be sent to an address of record that was changed within the last 30 days;
- a redemption is payable to someone other than the shareholder(s) of record; or
- **exchanging (transferring)** into another fund with a different shareholder registration.

A Medallion signature guarantee is designed to protect your account from fraud. Obtain a Medallion signature guarantee from a bank or trust company, savings association, credit union or broker, dealer, or securities exchange member.

A notary public cannot provide a signature guarantee.

PAYMENT METHODS FOR REDEMPTIONS

Your redemption proceeds will be mailed by check to your address of record. The following payment options are available if you complete the appropriate section of the New Account Form or an Account Service Options Form. These payment options require a signature guarantee if they were not established when the account was opened:

- an electronic transfer to your account at a financial institution that is an ACH member; or
- wire payment to your account at a domestic commercial bank that is a Federal Reserve System member.

Redemption In-Kind

Although the Fund intends to pay Share redemptions in cash, it reserves the right to pay the redemption price in whole or in part by a distribution of the Fund's portfolio securities.

LIMITATIONS ON REDEMPTION PROCEEDS

Redemption proceeds normally are wired or mailed within one business day after receiving a request in proper form. Payment may be delayed for up to seven days:

- to allow your purchase to clear (as discussed below);
- during periods of market volatility;
- when a shareholder's trade activity or amount adversely impacts the Fund's ability to manage its assets; or
- during any period when the Federal Reserve wire or applicable Federal Reserve banks are closed, other than customary weekend and holiday closings.

If you request a redemption of Shares recently purchased by check (including a cashier's check or certified check), money order, bank draft or ACH, your redemption proceeds may not be made available for up to seven calendar days to allow the Fund to collect payment on the instrument used to purchase such Shares. If the purchase instrument does not clear, your purchase order will be canceled and you will be responsible for any losses incurred by the Fund as a result of your canceled order. Any attempt to redeem Shares through checkwriting or debit card before the purchase instrument has cleared will be automatically rejected.

In addition, the right of redemption may be suspended, or the payment of proceeds may be delayed, during any period:

- when the NYSE is closed, other than customary weekend and holiday closings;
- when trading on the NYSE is restricted, as determined by the SEC; or
- in which an emergency exists, as determined by the SEC, so that disposal of the Fund's investments or determination of its NAV is not reasonably practicable.

You will not accrue interest or dividends on uncashed redemption checks from the Fund if those checks are undeliverable and returned to the Fund.

REDEMPTIONS FROM RETIREMENT ACCOUNTS

In the absence of your specific instructions, 10% of the value of your redemption from a retirement account in the Fund may be withheld for taxes. This withholding only applies to certain types of retirement accounts.

EXCHANGE PRIVILEGE

You may exchange Shares of the Fund for shares of any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Liberty U.S. Government Money Market Trust and Class K Shares. To do this, you must:

- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction.

The Fund may modify or terminate the exchange privilege at any time.

SYSTEMATIC WITHDRAWAL/EXCHANGE PROGRAM

You may automatically redeem or exchange Shares in a minimum amount of \$100 on a regular basis. Complete the appropriate section of the New Account Form or an Account Service Options Form or contact your financial intermediary or the Fund. Your account value must meet the minimum initial investment amount at the time the program is established. This program may reduce, and eventually deplete, your account. Payments should not be considered yield or income.

CHECKWRITING

You may request checks to redeem your Fund Shares. Your account will continue to receive the daily dividend declared on the Shares being redeemed until the check is presented for payment.

DEBIT CARD

You may request a debit card account that allows you to redeem Shares. There is an annual fee for this service that the Fund will automatically deduct from your account.

ADDITIONAL CONDITIONS

Telephone Transactions

The Fund will record your telephone instructions. If the Fund does not follow reasonable procedures, it may be liable for losses due to unauthorized or fraudulent telephone instructions.

Share Certificates

The Fund no longer issues share certificates. If you are redeeming or exchanging Shares represented by certificates previously issued by the Fund, you must return the certificates with your written redemption or exchange request. For your protection, send your certificates by registered or certified mail, but do not endorse them.

ACCOUNT AND SHARE INFORMATION

ACCOUNT ACTIVITY

You will receive periodic statements reporting all account activity, including systematic transactions and dividends paid by the Fund.

DIVIDENDS AND CAPITAL GAINS

The Fund declares any dividends daily and pays them monthly to shareholders.

The Fund may establish alternative days for payment of dividends each month at the election of your financial intermediary's firm. Each investment firm must elect the same payment date for all shareholder accounts that are traded through the same system maintained by the firm. Unless the transfer agent is otherwise notified, each investment firm will be deemed to elect to receive dividends on the last day of each month. If you purchase Shares directly from the Fund, you will receive dividends on the last day of each month.

From time to time, the Fund may realize capital gains or losses. If capital gains or losses were to occur, they could result in an increase or decrease in dividends. The Fund pays any capital gains at least annually, and may make such special distributions of dividends and capital gains as may be necessary to meet applicable regulatory requirements. Your dividends and capital gains distributions will be automatically reinvested in additional Shares without a sales charge, unless you elect cash payments. Dividends may also be reinvested without sales charges in shares of any class of any other Federated fund of which you are already a shareholder.

If you have elected to receive dividends and/or capital gain distributions in cash, and your check is returned by the postal or other delivery service as "undeliverable," or you do not respond to mailings from Federated with regard to uncashed distribution checks, your distribution option will automatically be converted to having all dividends and capital gains reinvested in additional Shares. No interest will accrue on amounts represented by uncashed distribution checks. Important information regarding the Fund's distributions, including the percentage of the Fund's distributions that are attributable to capital gains during the calendar year (if any), is available in the "Products" section of Federated's website at FederatedInvestors.com by clicking on the "Tax Center" link under "Related Information" and the clicking on "Year-End Tax Statements."

ACCOUNTS WITH LOW BALANCES

Due to the high cost of maintaining accounts with low balances, accounts may be closed if redemptions or exchanges cause the account balance to fall below \$10,000, or in the case of IRAs, \$250. Before an account is closed, you will be notified and allowed at least 30 days to purchase additional Shares to meet the minimum.

TAX INFORMATION

The Fund sends an IRS Form 1099 and an annual statement of your account activity to assist you in completing your federal, state and local tax returns. Fund distributions of dividends and capital gains are taxable to you whether paid in cash or reinvested in the Fund. Dividends are taxable at different rates depending on the source of dividend income. Distributions of net short-term capital gains are taxable to you as ordinary income. Distributions of net long-term capital gains are taxable to you as long-term capital gains regardless of how long you have owned your Shares.

Fund distributions are expected to be primarily dividends. Redemptions and exchanges are taxable sales. Please consult your tax adviser regarding your federal, state and local tax liability.

FREQUENT TRADING POLICIES

Given the short-term nature of the Fund's investments and its use of the amortized cost method for calculating the NAV of Fund Shares, the Fund does not anticipate that in the normal case frequent or short-term trading into and out of the Fund will have significant adverse consequences for the Fund and its shareholders. For this reason and because the Fund is intended to be used as a liquid short-term investment, the Fund's Board has not adopted policies or procedures to monitor or discourage frequent or short-term trading of the Fund's Shares. Regardless of their frequency or short-term nature, purchases and redemptions of Fund Shares can have adverse effects on the management of the Fund's portfolio and its performance.

PORTFOLIO HOLDINGS INFORMATION

Information concerning the Fund's portfolio holdings is available in the "Products" section of Federated's website at FederatedInvestors.com. A complete listing of the Fund's portfolio holdings as of the end of each month is posted on the website 15 days (or the next business day) after the end of the month and remains posted until replaced by the information for the succeeding month. Summary portfolio composition information as of the close of each month is posted on the website 15 days (or the next business day) after month-end and remains until replaced by the information for the succeeding month. The summary portfolio composition information may include percentage breakdowns of the portfolio by effective maturity range, credit quality tier and type of security.

This information is also available in reports filed with the SEC at the SEC's website at www.sec.gov.

In addition, from time to time (for example, during periods of unusual market conditions), additional information regarding the Fund's portfolio holdings and/or composition may be posted to Federated's website. If and when such information is posted, its availability will be noted on, and the information will be accessible from, the home page of the website.

WHO MANAGES THE FUND?

The Board of Directors (the "Board") governs the Fund. The Board selects and oversees the Adviser, Federated Investment Management Company. The Adviser manages the Fund's assets, including buying and selling portfolio securities. Federated Advisory Services Company (FASC), an affiliate of the Adviser, provides certain support services to the Adviser. The fee for these services is paid by the Adviser and not by the Fund. The address of the Adviser and FASC is Federated Investors Tower, 1001 Liberty Avenue, Pittsburgh, PA 15222-3779.

The Adviser and other subsidiaries of Federated advise approximately 149 equity, fixed-income and money market mutual funds as well as a variety of other pooled investment vehicles and customized separately managed accounts, which totaled approximately \$407 billion in assets as of December 31, 2008. Federated was established in 1955 and is one of the largest investment managers in the United States with approximately 1,380 employees. Federated provides investment products to over 5,300 investment professionals and institutions.

ADVISORY FEES

The Fund's investment advisory contract provides for payment to the Adviser of an annual investment advisory fee of 0.50% of the Fund's average daily net assets. The Adviser may voluntarily waive a portion of its fee or reimburse the Fund for certain operating expenses.

A discussion of the Board's review of the Fund's investment advisory contract is available in the Fund's Annual Report dated May 31, 2009.

LEGAL PROCEEDINGS

Since October 2003, Federated and related entities (collectively, "Federated") and various Federated funds ("Funds") have been named as defendants in several class action lawsuits now pending in the United States District Court for the District of Maryland. The lawsuits were purportedly filed on behalf of people who purchased, owned and/or redeemed shares of Federated-sponsored mutual funds during specified periods beginning November 1, 1998. The suits are generally similar in alleging that Federated engaged in illegal and improper trading practices including market timing and late trading in concert with certain institutional traders, which allegedly caused financial injury to the mutual fund shareholders. These lawsuits began to be filed shortly after Federated's first public announcement that it had received requests for information on shareholder trading activities in the Funds from the SEC, the Office of the New York State Attorney General ("NYAG") and other authorities. In that regard, on November 28, 2005, Federated announced that it had reached final settlements with the SEC and the NYAG with respect to those matters. Specifically, the SEC and NYAG settled proceedings against three Federated subsidiaries involving undisclosed market timing arrangements and late trading. The SEC made findings: that Federated Investment Management Company ("FIMC"), an SEC-registered investment adviser to various Funds, and Federated Securities Corp., an SEC-registered broker-dealer and distributor for the Funds, violated provisions of the Investment Advisers Act and Investment Company Act by approving, but not disclosing, three market timing arrangements, or the associated conflict of interest between FIMC and the funds involved in the arrangements, either to other fund shareholders or to the funds' board; and that Federated Shareholder Services Company, formerly an SEC-registered transfer agent, failed to prevent a customer and a Federated employee from late trading in violation of provisions of the Investment Company Act. The NYAG found that such conduct violated provisions of New York State law. Federated entered into the settlements without admitting or denying the regulators' findings. As Federated previously reported in 2004, it has already paid approximately \$8.0 million to certain funds as determined by an independent consultant. As part of these settlements, Federated agreed to pay disgorgement and a civil money penalty in the aggregate amount of an additional \$72 million and, among other things, agreed that it would not serve as investment adviser to any registered investment company unless: (i) at least 75% of the fund's directors are independent of Federated; (ii) the chairman of each such fund is independent of Federated; (iii) no action may be taken by the fund's board or any committee thereof unless approved by a majority of the independent trustees of the fund or committee, respectively; and (iv) the fund appoints a "senior officer" who reports to the independent trustees and is responsible for monitoring compliance by the fund with applicable laws and fiduciary duties and for managing the process by which management fees charged to a fund are approved. The settlements are described in Federated's announcement which, along with previous press releases and related communications on those matters, is available in the "About Us" section of Federated's website at FederatedInvestors.com.

Federated entities have also been named as defendants in several additional lawsuits that are now pending in the United States District Court for the Western District of Pennsylvania, alleging, among other things, excessive advisory and Rule 12b-1 fees.

The Board of the Funds retained the law firm of Dickstein Shapiro LLP to represent the Funds in each of the lawsuits described in the preceding two paragraphs. Federated and the Funds, and their respective counsel, have been defending this litigation, and none of the Funds remains a defendant in any of the lawsuits (though some could potentially receive any recoveries as nominal defendants). Additional lawsuits based upon similar allegations may be filed in the future. The potential impact of these lawsuits, all of which seek unquantified damages, attorneys' fees, and expenses, and future potential similar suits is uncertain. Although we do not believe that these lawsuits will have a material adverse effect on the Funds, there can be no assurance that these suits, ongoing adverse publicity and/or other developments resulting from the regulatory investigations will not result in increased Fund redemptions, reduced sales of Fund shares or other adverse consequences for the Funds.

APPENDIX A: HYPOTHETICAL INVESTMENT AND EXPENSE INFORMATION

The following chart provides additional hypothetical information about the effect of the Fund's expenses, including investment advisory fees and other Fund costs, on the Fund's assumed returns over a 10-year period. The chart shows the estimated expenses that would be incurred in respect of a hypothetical investment of \$10,000, assuming a 5% return each year, and no redemption of Shares. The chart also assumes that the Fund's annual expense ratio stays the same throughout the 10-year period and that all dividends and distributions are reinvested. The annual expense ratio used in the chart is the same as stated in the "Fees and Expenses" table of this prospectus (and thus may not reflect any fee waiver or expense reimbursement currently in effect). The maximum amount of any sales charge that might be imposed on the purchase of Shares (and deducted from the hypothetical initial investment of \$10,000; the "Front-End Sales Charge") is reflected in the "Hypothetical Expenses" column. The hypothetical investment information does not reflect the effect of charges (if any) normally applicable to redemptions of Shares (e.g., deferred sales charges, redemption fees). Mutual fund returns, as well as fees and expenses, may fluctuate over time, and your actual investment returns and total expenses may be higher or lower than those shown below.
