### Past performance is no guarantee of future results.

The fund is the successor to the MDT Small Cap Core Fund pursuant to a reorganization that took place on December 8, 2006. Prior to that date, the fund had no investment operations. Accordingly, the performance information shown for periods prior to that date is that of the MDT Small Cap Core Fund.

### A WORD ABOUT RISK

Mutual funds are subject to risks and fluctuate in value. Small company stocks may be less liquid and subject to greater price volatility than large capitalization stocks.

### DEFINITIONS

The holdings percentages are based on net assets at the close of business on 6/30/10 and may not necessarily reflect adjustments that are routinely made when presenting net assets for formal financial statement purposes. Because this is a managed portfolio, the investment mix will change.

Total return represents the change in value of an investment after reinvesting all income and capital gains. Total return would have been lower in the absence of temporary expense waivers or reimbursements.

Growth Over Time performance is for the fund's Class A Shares. Figures do not reflect the 5.5% maximum sales charge. The fund offers additional share classes whose performance will vary due to differences in charges and expenses.

Russell 2000<sup>®</sup> Index offers investors access to the small-cap segment of the U.S. equity universe. The Russell 2000 is constructed to provide a comprehensive and unbiased small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set. Indexes are unmanaged and cannot be invested in directly.
